**\*Project 1 of the IRMP 2010/11** – OFRS to report to the Cabinet Member for Safer and Stronger Communities and the Scrutiny Committee on a four monthly basis in the first twelve months after implementation. This report to also include details of the beneficial elements to RDS stations from the staff redeployment of the four Watch Managers. OFRS to flag up when they are ready for the reporting to start.

**\*\*A detailed written report will come to scrutiny** (including information on governance, the facilities to be provided and a serious assessment of the flooding risk and mitigation for this) at the appropriate time, possibly when consultation takes place with Banbury residents.
