

Pension Fund Committee Friday, 8 March 2019

ADDENDA

3. Minutes

Prior to approval of the minutes of the meeting held on 7 December 2018, the Committee is asked to accept the following amendment to Minute 76/18 'Overview of Past and Current Investment Position':

To replace paragraph 2 with the following:

'Mr Davies reported that with the £52m gain in the third quarter, the Fund had reached its highest ever level at just over £2.5bn. The gains in the quarter came largely from Overseas Equities, with small contributions from Private Equity, Property and Infrastructure, while UK Equities fell slightly. Subsequent falls in markets has reduced the value of Equities by some £80m at the end of November.'

21. Corporate Governance and Socially Responsible Investment (Pages 1 - 12)

The Chairman has asked that the attention of the Committee be drawn to the attached 2018 Quarterly Engagement report from the Local Authority Pension Fund Forum (LAPFF) which has a piece on corporate governance and socially responsible investment.

This page is intentionally left blank

The Local Authority Pension Fund Forum (LAPFF) exists to promote the long-term investment interests of member funds and beneficiaries, and to maximise their influence as shareholders whilst promoting the highest standards of corporate governance and corporate responsibility at investee companies. Formed in 1990, LAPFF brings together a diverse range of 79 public sector pension funds and five pools in the UK with combined assets of over £230 billion.

QUARTERLY ENGAGEMENT REPORT

OCTOBER TO DECEMBER 2018

LAPFF raises the stakes and calls for a shareholder resolution at Ryanair

AGM attendance raises operational risk of joint ventures in relation to Samarco dam

Competition and Markets Authority final report devotes an appendix to LAPFF's 'expectations gap' on audit quality

Kingman Review recommends disbanding the FRC in line with LAPFF position

Affordability and climate risk strategy explored in meetings with construction firms and housebuilders

Regulatory and other challenges of plastic waste and pollution addressed with consumer goods and packaging companies

Executive Summary

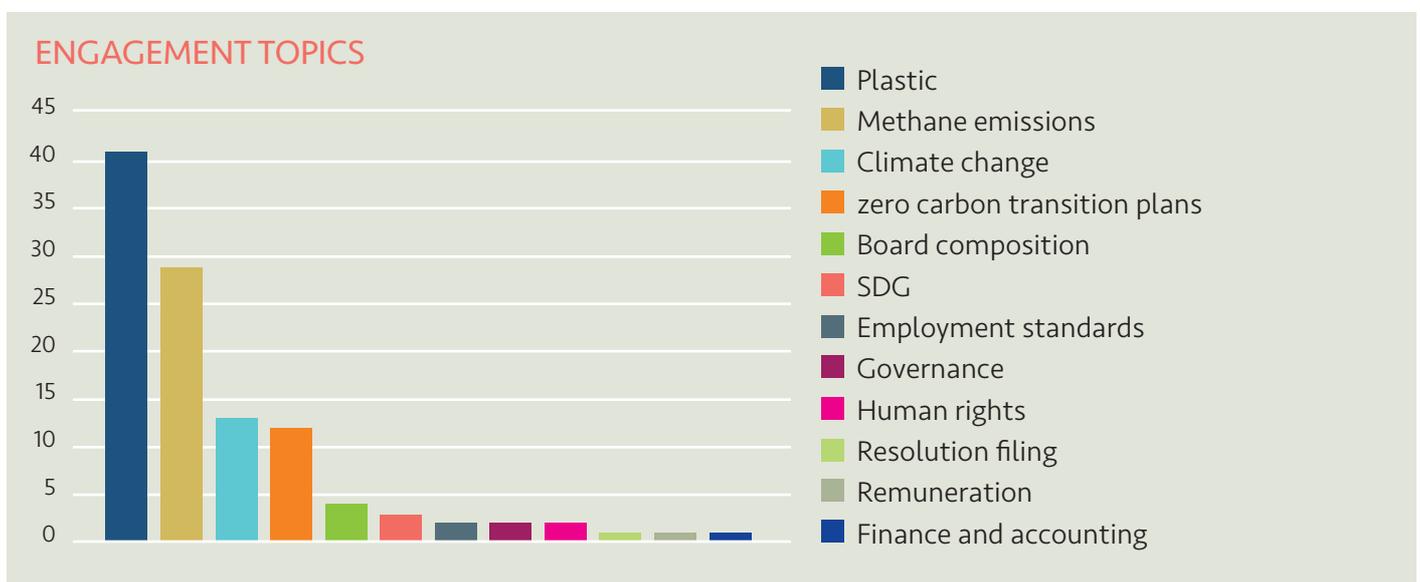

Concerned about the continuing human capital management and governance issues at Ryanair, the Forum announced a proposal to file a shareholder resolution ahead of the company’s 2019 AGM, with the aim of replacing the current Chair David Bonderman, who has been on the board for 22 years, and ensuring that a coherent succession plan is in place for Chief Executive Michael O’Leary. Despite numerous efforts to meet with a Board member, Ryanair has not yet agreed to such a meeting.

The Forum also progressed work on the topic of plastics, joining a coalition of investors engaging with companies on the overall threats posed by plastic waste and pollution. The Forum met with two companies on this, as well as discussing the use of single-use plastic specifically. Additionally, the Forum co-signed a letter to a range of companies on reducing plastic pellet loss.

The quarter saw many engagements with Board members of housebuilders and construction companies on the topic of sustainable cities and climate risk management. Part of a broader topic of Sustainable Development Goals, these meetings sought to broaden the Forum’s understanding of how these companies approach issues around planning and affordability, and seek assurance that tackling climate change is integral to the business strategy.

During this quarter, LAPFF engaged with 95 companies on issues ranging from human capital management and Board composition to climate change reporting and sustainability.

Company Engagement

SOCIAL RISK

Ryanair

In continuing attempts to meet with members of the **Ryanair** Board, Acting Chair Cllr Paul Doughty attended the AGM and reiterated a request to meeting, but this was not secured. Following a failure to listen to shareholders' concerns after almost 30% of voted against Mr Bonderman's re-election at the September AGM, LAPFF announced plans to file a shareholder resolution at the 2019 AGM that would recommend the Company replace Mr Bonderman and set out succession plans for Chief Executive Michael O'Leary.

Social Risks and Poor Management at BHP and Sports Direct

During the quarter, Cllr Paul Doughty attended **BHP Billiton's** AGM, where he inquired about operational risks of joint ventures, specifically in relation to the Samarco dam. While the company noted that a different approach to joint ventures would not have prevented Samarco, BHP learned a number of lessons from the tragedy. The Forum also met with community members affected by the Samarco dam collapse to listen to their personal experiences and to assess what additional issues can be raised with the company in the future.

At **Sports Direct's** AGM in December, Cllr Doughty inquired about the current acquisition strategy which might not be appropriate to create sufficient value for shareholders. The Forum questioned the company's reasoning behind acquiring struggling high street retailers House of Fraser and Evans Cycles, in light of Michael Ashely's comments that the 'high street is dying'. Sports Direct assured the Forum that all efforts will be paid to save the high street and shareholder assets will be protected. When asked about including an independent body in the selection process of a workers representative, the company did not comment.

Following a meeting with the Vice President of investor relations representative earlier this year, LAPFF wrote to the Lead Independent Director of **Motorola Solutions**, requesting a meeting to discuss the Company's human rights policy and due diligence processes relating to operation in the Occupied Palestinian Territories.

LAPFF continued to engage with companies on gender diversity through its membership in the 30% Club Investor

Group, which currently has a focus of UK companies in the energy sector. The group is also reaching out to search firms to ensure that they fully embrace the voluntary code of conduct on diversity.

'Expectations Gap is a Red Herring': LAPFF Responds to Competition and Markets Authority

The LAPFF response to the Competition and Markets Authority (CMA) consultation on the UK audit market, submitted on 29 October 2018, highlighted the deficiencies of the Financial Reporting Council and the standards and inspection regimes under that. LAPFF received a very quick response from the enquiry and a meeting was held with the acting chair of LAPFF on 13 November. The officials met were very engaged on the issues, and given similar information from the investor coalition that LAPFF has been a member of, the subject of the legal opinions of George Bompas QC for LAPFF was discussed in detail.

The matter of the auditors' claim of an 'expectation gap' between what they are supposed to do and what the public expects them to do, came up. The final CMA report devoted an appendix chapter to the subject. It states that 'LAPFF described the expectations gap as a red herring. LAPFF argued that the audit quality problem is a result of the industry's misinterpretation of the existing legal framework. In short, if the existing regime was interpreted and applied properly, the expectation gap would disappear because the current legal framework should be robust enough to produce the quality outcomes stakeholders expect.'

The CMA report also made far reaching recommendations to reform the UK audit market. Firstly, separating the consulting parts of accounting firms from audit, a form of ring fencing. Secondly, requiring that FTSE 350 companies must have joint auditors, the second auditor not being one of the Big 4.

On the same day the Kingman Review reported on the future of the Financial Reporting Council. It recommends, in line with the LAPFF position, that the FRC is disbanded and replaced with a statutory body constituted by Parliament. The Review recommends this as the Auditing, Reporting and Governance Authority.

Governance at Housebuilders and Glencore

With the aim of gaining a better understanding of companies' approach to the Sustainable Development Goals, in particular the goal on sustainable cities and communities, LAPFF met with a number of housebuilders and construction companies. At a meeting with the Chair of **Persimmon**, Roger Devlin, LAPFF Vice Chair Cllr Doug McMurdo asked about issues around planning and the Help to Buy scheme. On climate risk management, the Company expressed interest in measuring Scope 3 emissions. The Forum was also interested to hear the company's plan to repair its damaged reputation over executive payouts, following opposition from 49% of shareholders on remuneration for Chief Executive, Jeff Fairburn.

© Jim Barton

At a meeting on the same topic with Kevin Beeston, the Chair of **Taylor Wimpey**, Cllr McMurdo inquired about the sustainability of the Help to Buy scheme and the company's relationship with central government. The company then discussed climate risk management and assured LAPFF that science-based targets will be set. Diversity across the business was also a topic of discussion. The overall approach to sustainable cities and other development goals was also raised with the chief executive of **Barratt Developments**, David Thomas. The meeting discussed standards for homes, noting the board's focus on climate risk, which includes adaptation measures taken in siting for flooding as well as the need for science-based targets.

Along with other investors, including Sarasin and Church Commissioners, LAPFF met with Tony Hayward, the Chair of **Glencore** to ensure that the company has appropriate measures in place to deal with bribery and corruption. Investors present were also proposing that the company undergoes an independent review of its internal controls, to which Glencore committed to.

LAPFF also expressed its concern over **Amazon's** lack of meaningful engagement with its shareholders, despite concerns related to management of of certain environmental, social and governance matters. In a collaborative letter to the company, signatories noted their interest in filing a resolution if no response is received.

At **Rio Tinto's** ESG Forum hosted by the Chair, the Board as well as senior management, company representatives discussed the importance of incorporating ESG in business strategy and communicating about potential issues with shareholders. During a Q&A, investors engaged on a range of topics including relationship with employees and unions, fatality rate and joint ventures, as well as climate-related financial disclosure and climate change competence at Board level.

ENVIRONMENTAL AND CARBON RISK

Tackling Climate Risk at Oil and Gas Companies

One of the big stories of the quarter, was **Royal Dutch Shell** publishing a [joint statement](#) with Climate Action 100+ lead investors, setting out its corporate strategy to implement its commitment made in 2018 which was to reduce the *Net Carbon Footprint* of its energy products by around half by 2050. Specific milestones include targets linked to remuneration, annual reporting on the progress, alignment with the TCFD recommendations and review of trade association memberships. Acting Chair Cllr Paul Doughty attended Shell's 'Board Day' in December. The Chair Chad Holliday was in attendance along with the Chairs of the Audit, Remuneration and CSR Committees and described various attributes of the board members that make them effective for Shell. Cllr Doughty asked Mr Holliday how environmental, social and governance standards can be respected through non-operated joint ventures in which Shell is involved. Cllr Doughty used the example of a recent communication by IndustriALL expressing concern about working conditions for contract workers at Shell operations.

An 'eight on eight' meeting of **BP** executives and 'Climate Action 100+' investors continued long-term regular engagement with the company. Discussions aimed to tease out further details on the company's strategy for the transition to a low carbon economy, including more information on target setting over the short, medium and long-term; ensuring capex on oil and gas development is aligned with the Paris agreement and provision of information on emissions associated with the production and use of the company's products.

The focus on the oil and gas companies does not diminish, and in December, under a tight time-frame, funds were offered the opportunity to co-file a shareholder resolution to **ExxonMobil** as part of Climate Action 100+ engagement. The resolution called for the company to disclose short, medium and long-term greenhouse gas targets aligned the Paris Climate Agreement.

Along with a group of 61 investors, the Forum asked 30 companies to declare their support for continued US Environmental Protection Agency (EPA) regulation of methane emissions and to oppose the elimination of direct regulation of methane emissions. Natural gas is almost entirely methane which is 87 times more potent in global heating than carbon dioxide over a twenty year period. If emissions from gas production, storage and delivery exceed 2% of gas produced, there is no climate benefit compared to coal. The participating investors believe that

rolling back current methane regulation would be a threat to long-term viability of the oil and gas sector.

Utilities and clean energy

A meeting with **National Grid** co-ordinated by Climate Action 100+ provided encouraging news that the group will look at a 1.5 degree scenario. Cllr Robert Chapman asked about the most positive areas of 'value change' for shareholders. In the response, the decarbonisation of transport was cited, with further information provided on the timescale for the roll out of charging points around the UK's motorway system. The different market forces at work in the UK and US businesses are very apparent. National Grid works closely with consumers in its US operations where Massachusetts, New York and Rhode Island have each adopted targets mandating an 80% reduction in CO₂ emissions by 2050 across their entire economies. The Group is working in a number of areas to progress this including energy efficiency, micro-grids and geothermal.

During a meeting with **Southern Company**, co-ordinated by the 50/50 initiative, company representatives talked about the reasons for not having a separate Climate Committee, but instead delegating to the operations committee to address climate risks. The meeting also discussed climate-related disclosure and the use of climate-related metrics as part of executive remuneration.

LAPFF joined other Climate Action 100+ investors in writing to a number of utility companies, urging them to accelerate decarbonisation by setting out transition plans to net-zero carbon economy. Signatories also called on companies to support the development of ambitious climate policy and ensure that their trade associations are aligned with this objective.

Cross sectoral engagement

A first meeting was held with **ArcelorMittal** under the aegis of the Climate Action 100+ Group. The meeting covered governance of climate risk at the company and plans for emission reductions through the use of low carbon technologies across operations. Scenario planning, target setting and Taskforce on Climate-related Financial Disclosure reporting were also discussed.

A collaborative conference call, was held with **General Electric Company** to follow up on an letter sent earlier in the year on the climatic impacts of the proposed Amu Power coal project in Kenya. On the call, company representatives committed only to listen to questions and provide written answers. LAPFF asked if the company had considered how prices quoted for coal versus renewables might change over a two to five year time frame, and their view on renewables. A follow-up letter to the company set out a range of issues, including on this point, by asking for the levelised cost of electricity the company used in its evaluation.

LAPFF has signed on to an [Investor Statement](#) supporting a just transition to a low-carbon economy. This statement recognises that the social impact of a low-carbon energy transition is often overlooked. However, to avoid stranded workers and stranded communities, as well as stranded

physical assets, and to facilitate a smooth transition, social impacts need to be considered.

LAPFF also signed a statement from the Investor Working Group on Sustainable Palm Oil, which highlighted what investors' expect of companies regarding sustainable palm oil, and asks companies operating across the palm oil value chain to adopt and publicly disclose a 'no deforestation, no peat, no exploitation' policy. The statement serves to update an early [position paper](#) (signed by LAPFF).

FCA FINANCIAL CONDUCT AUTHORITY An exchange of correspondence with the Financial Conduct Authority (FCA) aimed to better understand how shareholder resolutions are being dealt with at dual-listed companies and to prompt the FCA to promote better practice in the regulatory framework for shareholder accountability. The Forum was specifically concerned with a resolution on climate change at Rio Tinto and reiterated to the FCA that climate risk is a pressing policy issue that affects all companies.

Plastics: 2025 Target for Biodegradable, Compostable and Recyclable Materials at PepsiCo and Nestlé

As a member of the Plastic Solutions Investor Alliance, the Forum engages with consumer goods companies on the overall threats posed by plastic waste and pollution. In November, the Forum participated in a collaborative call with **Nestlé** to discuss the company's global packaging commitment and the related challenges of moving towards a more circular plastic economy. Plastic packaging and pollution was also discussed with **PepsiCo**. The company discussed plans to solely use plastic that is biodegradable, compostable and recyclable by 2025. Both companies expressed concerns over the challenges of having global operations with different regulations. The two companies are working together to achieve the 2025 target.

The Forum has also signed an investor letter urging companies to commit to zero plastic pellet loss across their whole business and to assess and report on all progress. Plastic pellets are used to create almost all plastic products and it is estimated that over 200 thousand tonnes of pellets or other micro-plastics enter the ocean each year¹. The letter was sent to over 40 companies in associated supply chains which included plastic manufacturers, plastic packaging manufacturers, transport and logistic companies, retailers and consumer companies.

NETWORKS AND EVENTS

The following lists some of the events and meetings attended by or on behalf of LAPFF representatives during the quarter:

The Forum's 23rd annual conference focused on the financial aspects of corporate governance. Presentations from Lord Davies, Baroness Brown, James Bloodworth and many others covered a wide range of topics including problematic accounting rules, executive remuneration, the climate crisis, plastics, human capital management risks and diversity.

global witness

At a collaborative meeting with Peter Jones of Global Witness, the Forum discussed Glencore's relationship with notorious businessman Dan Gertler and related corruption allegations. Global Witness provided three examples around the time of Glencore's IPO that suggested significant financial benefit to Mr Gertler, and no apparent commercial benefit to Glencore.

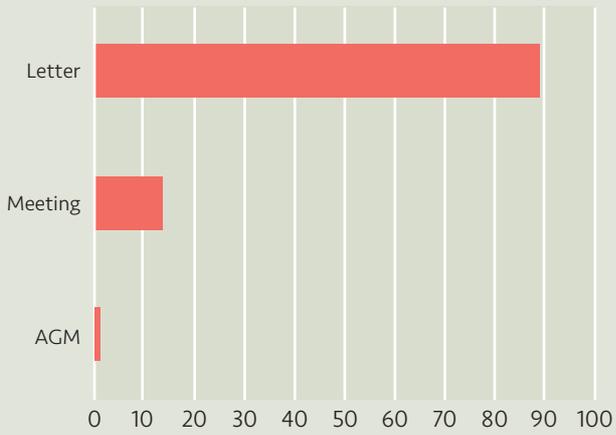

LAPFF Acting Chair, Cllr Paul Doughty, met with the Head of UK and Ireland at the Principles of Responsible Investment (PRI) in December. LAPFF has joined a number of PRI engagements in the past and the two organisations are continuing to look for ways to work together on the responsible investment agenda. In October, the Forum attended a call with PRI to update signatories on cyber engagements and discuss next steps in escalating activities on this topic.

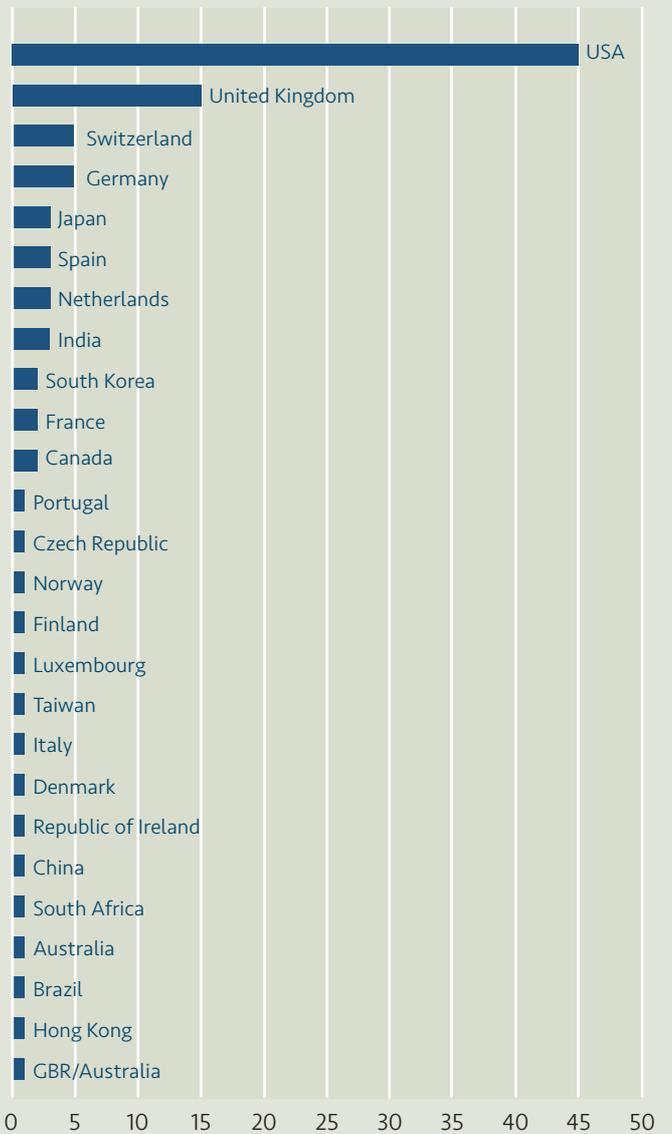

Tom Powdrill of the International Transport Workers' Federation, spoke about employment standards at Ryanair and the role of pension funds at the October meeting of the All Party-Parliamentary Group (APPG) on Local Authority Pension Funds. Chaired by Clive Betts MP, the meeting also covered the topic of localising pension fund investments, introduced by Craig Berry, a former employee of Sheffield Political Economy Research Institute. The minutes from the meeting can be accessed [here](#).
