Please give full details (attach extra sheets if necessary).

My daughter currently lives with her mother in Wallingford but now stays with me for one night a week, therefore requiring a bus pass to get home from school in the afternoon & back to school the next morning. There is a school bus which would be suitable, the 2802, & currently runs 2/3rds full, so obviously plenty of space. I have been told that i would have to pay the full amount per term as Eleanor would be taking up space that could be used, potentially, by another full paying fare. Unless Ewelme has a sudden influx of children move into the village then this is not going to happen and therefore be an irrelevant argument. I accept that I need to pay something but surely should only be paying a 1/5th of the full amount as this is all she would be using the bus for each week?
