STRATEGY & PARTNERSHIPS SCRUTINY COMMITTEE 22 JULY 2010

OXFORDSHIRE'S THEMATIC PARTNERSHIPS: REVIEW OF PERFORMANCE AND GOVERNANCE

Background

- 1. Last year we put new partnership governance arrangements in place. We are now reviewing whether these are effective and assessing strengths, areas for improvement and what the change of government might mean for partnerships. Scrutiny wishes to be involved in this work.
- 2. Overall we have created the conditions for people to work together on shared priorities. However joint working is not easy and there will always be areas where things are not going as well as we would like. The schedule attached identifies the issues which are being addressed.

Key issues

- 3. It is likely that the government will (in time) modify the statutory framework for partnerships. Currently we are obliged to have a local strategic partnership, a Children's Trust and partnership for safer communities.
- 4. At this stage it is difficult to anticipate how the Government will seek to change the nature of partnership working although the following are possible:
 - More local choice about what partnerships are required (regionally and locally) to get things done in the county.
 - Changes to the economic development functions with the removal of the regional development agency (SEEDA) and creation of new Local Enterprise Partnerships.
 - Local Area Agreements to be abandoned after 2010/11.
 - Possibly some form of 'Total Place' initiative requiring partnership working to secure joined up action and pooling/rationalisation of resources at a local level.
 - Health White Paper proposals to move public health responsibility to local councils and strengthen the role of the Health and Well-being partnership.
