

AUDIT and GOVERNANCE COMMITTEE – 25 APRIL 2018

Internal Audit Strategy and Internal Audit Plan for 2018/19

Report by the Director of Finance

Introduction

1. This report presents the Internal Audit Strategy and Internal Audit Plan for 2018/19. A separate plan for Counter-Fraud activity will be presented to the July 2018 Committee.

Background

2. The Accounts and Audit Regulations 2015 state that the Council needs to maintain an adequate and effective system of internal audit of its accounting records, and of its system of internal control in accordance with the proper internal audit practices; these are defined as the Public Sector Internal Auditing Standards 2013, updated March 2017.
3. The Public Sector Internal Auditing Standards defines “Internal auditing is an independent, objective assurance and consulting activity designed to add value and improve an organisation’s operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes.”
4. The Chief Internal Auditor is required to provide an annual report on the System of Internal Control which is used to inform the Council’s Annual Governance Statement. In providing this opinion we are required to review annually the financial management, risk management and governance processes operating within the Council. This includes reviewing internal control systems for key processes on a risk basis.
5. The Internal Audit Annual Plan has been drafted however will evolve and needs to be dynamic and subject to amendments / responsive to organisational change and resulting emerging risks during the year.

Audit Planning Methodology

6. Our Internal Audit Plan has been developed to consider the corporate vision and priorities of Oxfordshire County Council, the County Leadership Team (CLT) priorities and management's assessment of risk as set out in the corporate and directorate risk registers. The audit plan now includes cross referencing to those priorities and risks.
7. We also use our own risk assessment against each activity assessing their significance, sensitivity and materiality – ranking each activity as high, medium or low priority for inclusion within the Internal Audit Plan.
8. Audit planning is undertaken in accordance with Oxfordshire County Council's Internal Audit Charter.
9. As part of the annual planning process the Chief Internal Auditor meets with each of the Strategic Directors, Directors, Deputy Directors, Finance Business Partners and the Director of Finance. This provides crucial insight and intelligence into the strategic and operational priorities of the organisation. Quarterly meetings with each of the Directorate Leadership Teams are attended to ensure the plan is kept under continuous review. The plan will also be reviewed quarterly with reference to the risk registers, and presented to the Audit and Governance Committee for consideration and comment. This ongoing review and insight enables the audit plan to be flexible to meet any changing assurance needs and risks of the organisation.
10. The Audit and Governance Committee will continue throughout 2018/19 to gain assurance through reports from Senior Management on key areas such as Fit for the Future (transformation programme).
11. Our aim is to align our work with other assurance providers, including the External Auditors, Health Auditors and the Southern Internal Audit Partnership. The Southern Internal Audit Partnership provides annual assurance to Oxfordshire County Council on the adequacy and effectiveness of the framework of governance, risk management and control from the work carried out by the IBC. Individual audit reports on the IBC key financial systems are shared with the Chief Internal Auditor, Director of Finance and Assistant Chief Finance Officer (Assurance). An overall statement of assurance report is produced and presented to the Audit and Governance Committee each year.
12. The Chief Internal Auditor is a member of the Corporate Governance Assurance Group, which supports the monitoring and development of the assurance framework and production of the Annual Governance Statement.

This includes review of the key governance areas through the Corporate Leads.

13. The Chief Internal Auditor continues to attend the Counties Chief Auditor Network (National Group) and also the Midland Counties and Districts Chief Internal Auditors Group to enable networking and to share good practice. This contributes to the internal audit planning activity.
14. The Audit and Governance Committee will receive a quarterly report, including a status update on the approved work plans, and a summary of the outcomes of completed audits.

Counter-Fraud

15. Internal Audit currently have the responsibility for Counter-Fraud. The future model for delivery of both the pro-active fraud plan and management of reactive work / investigations is currently being developed. We are looking to continue to work in collaboration with the Oxford City Investigation Team who deliver our reactive work. However, it is acknowledged that we need to further build and strengthen our pro-active fraud activity.
16. Additional funding has been identified which firstly provides an opportunity to develop a new fraud response model and secondly review the structure and responsibilities within the current Internal Audit Team. (these are outlined below under Internal Audit Resourcing). The fraud risk assessment is being developed and it is proposed that an update on the plans for delivery of Counter-Fraud, along with a Counter-Fraud plan for 2018/19 will be presented to the July 2018 Committee.

Internal Audit Resourcing

17. The Internal Audit Team for 2018/19 comprises of the following resources:

Gross days	=	1582
Less Overheads & Non-Chargeable Days	=	342
Chargeable days available	=	1240

18. There is a reduction of available chargeable days from 2017/18 (1440) to 2018/19 of 200 days. This is because 200 days were included within the 2017/18 resource plan for the Oxford City Council Investigation Team resource. These are not included within the gross and chargeable days figures for 2018/19. This has not impacted on the available chargeable days for audit assignments, this remains at 925 days.

2018/19	FTE	Gross days available (before overheads and non-chargeable days)	Chargeable days available	Chargeable days - audit assignment	Chargeable days – non-assignment	Chargeable days – Counter-Fraud
Chief Internal Auditor	0.7	182	140	60	60	20
Principal Auditor	0.8	208	160	150	10	0
Principal Auditor	0.8	208	160	90	10	60***
Senior Auditor *	1	260	200	150	5	45
Auditor	1	260	200	190	10	0
Auditor	1	260	200	190	10	0
Team Administrator	0.8 (50%)	104	80	0	80	0
I.T. Auditor	0.5	100	100	95	5	0
Total	6.2 FTE	1582	1240	925	190	125**

* There is a development opportunity for the Senior Auditor to commence a six-month secondment with the Policy Team, from the beginning of May. It is planned that the chargeable audit days lost from this secondment will be covered with the use of brought in temporary resource, including an increase of the IT auditors purchased days to cover some general audit work.

** The total of 125 chargeable days for counter-fraud, includes only the resource from the in-house team. As reported above a new model for delivery is being developed which includes additional funding. The detail of this will be reported to the July Committee.

*** The development of a new model for counter-fraud will enable a review of the current responsibilities within Internal Audit. It is envisaged that the roles of both Principal Auditors will be reviewed, with the aim of providing development opportunities and providing some further capacity for the Chief Internal Auditor. Whilst this review has not yet been completed, counter fraud days have been included for one of the Principal Auditors to reflect management of pro-active fraud work going forward and potential involvement with the development of the use of continuous monitoring within the organisation in areas of risk of fraud / error and improved use of data analytics within Internal Audit.

Overheads:

This time is for bank holidays, annual leave, special leave, training, contingency for sick absence, and recruitment.

Non-Chargeable Days:

The non-chargeable days are for non-audit related activity, including administration time, staff appraisals, 1:1's and departmental work.

Chargeable days – non-audit assignment:

These are days not attributed to planned audit activity, such as the Chief Internal Auditors management days, admin support for actual audit work, preparation of the audit plan, operational planning, reports for the AWG and Audit Committee, attendance at Directorate Leadership Teams meetings and corporate assurance groups, External Audit liaison and follow up on implementation of agreed management actions.

19. The 925 chargeable days available for audit assignments will be split as following across the directorates

Directorate	Chargeable days available for audit assignments
People (Adults, Children and Public Health)	395
Communities	160
Communities / Resources	60
Resources	185
Corporate / Cross Cutting - Governance	100
Grant Certification	25
TOTAL	925

20. Oxfordshire County Council Internal Audit operates in conformance with the Public Sector Internal Audit Standards. We promote excellence and quality through our audit process, application of our Quality Assurance Improvement Programme and training and development. During 2018/19 we will be supporting 3 members of staff to undertake the Chartered Internal Audit qualification. We use a number of ways to monitor our performance, respond to feedback and seek opportunities to improve. Evidence of the quality of our audits is gained through feedback from auditees and the results of supervision and quality assurance undertaken as part of our audit process.

21. The proposed performance indicators for 2018/19 are attached as appendix 1 to this report.

2018/19 Internal Audit Plan

22. Appendix 2 sets out the annual Internal Audit plan for 2018/19.

23. The key focus of audit activity during the year includes

- Financial Management
- Contract Management
- Directorate Strategic Risks
- Implementation of the new Children's IT system
- Oxfordshire Housing & Growth Deal / Capital programme management
- Governance
