Summary of Financial Position at September 2021

Introduction

1. This annex sets out the latest financial monitoring information for the 2021/22 financial year and is based on information to the end of September 2021. Key issues, risks and areas of emerging pressure are set out below.

The following additional information is provided to support the information in this

Annex:	
Annex C – 1 (a) to (f)	Detailed directorate positions
Annex C – 2a	Virement Summary
Annex C – 2b	COVID-19 forecast and virement request
Annex C – 2c	Virements to Note
Annex C – 3	Government Grants Summary
Annex C – 4	Earmarked Reserves

Overall Financial Position

2. The table below sets out that there is a forecast overspend of £1.4m or 0.3%. Further detail is set out in the directorate sections. Where variations to the budget are reported, management action is being taken and the forecast is likely to change by the end of the year.

Directorate	Latest Budget	Forecast Spend	Variance September 2021	Variance September 2021	Variance August 2021	Change
	£m	£m	£m	%	£m	£m
Children's Services	139.7	142.1	2.4	1.7	1.8	+0.6

Directorate Financial Positions

Children's Services

- 3. For 2021/22 the Children's Services budget is £139.7m.
- 4. As at the end of September a £2.4m variance to the budget is reported within Children's Services. This is all within Children's Social Care, but there are a number of risks which also need to be monitored during the year.

Service Area	2021/22 Latest Budget	Variance September 2021	Variance August 2021	Change
	£m	£m	£m	£m
Education & Learning	32.8	0.0	0.0

Schools*	0.2	0.0	0.0	
Children's Services Central Costs	4.9	0.0	0.0	
Total Children's Services	139.7	2.4	1.8	+0.6

*Maintained Schools are funded by Dedicated Schools Grant

Education & Learning

- 5. Within Education & Learning there are on-going risks and uncertainties for both the Home to School Transport and the Special Educational Needs (SEN) service.
- 6. There was a significant underspend in Home to School Transport in 2020/21 that was in part linked to home learning for many children for part of the year due to COVID-19 pandemic. The benefits realised through alternative or more efficient transport solutions should continue to materialise and result in ongoing cost reductions. However, these reductions are likely to be offset against the impact of demographic growth. This is currently being assessed based on actual routes in place from the autumn term when school places were taken up and routes finalised. There is also a risk relating to price increases linked to the driver market.
- 7. Within the Special Education Needs service there are considerable pressures on the SEN casework team and Educational Psychologists due to the continued high number of education, health and care plan (EHCP) requests. This additional workload is likely to result in a budget pressure if additional staff are required to manage the demand. Further work has identified that the level of demand for assessment and additional SEN support is also higher than anticipated. This is likely to be an effect of the COVID-19 pandemic and further work is underway to identify options for managing this demand.

COVID-19 Impact

8. Committed and agreed spend on COVID-19 to date is forecast to be £0.8m. There are a number of emerging pressures which may increase this forecast over the

Annex C Business Management & Monitoring Report September 2021

coming months, and it may be necessary to keep resources in place for longer than currently planned. £0.4m of the agreed spend relates to an ongoing commitment to support early years sufficiency by supporting providers at risk of closure. £0.2m relates to meeting pressures within paediatric therapy services where waiting lists have increased as a result of COVID-19. The balance relates to attendance, elective home education, SEN casework and admissions pressures.

Social Care

- Recruitment and retention of front-line children's social workers is an issue in the majority of local authorities and represents an increasing challenge in Oxfordshire. COVID-19 has amplified these pressures with workers dealing with higher levels of need and complexity of cases.
- 10. Based on the current use of agency social workers it is anticipated that there will be an overspend within the front-line social care teams of at least £1.1m in 2021/22. Work is ongoing to address the vacancies over the medium term, which may reduce the pressure in future years if successful, but there remains a significant risk this pressure could significantly increase further this year. Additional work is underway to look at solutions over the longer-term, but it is currently anticipated that a pressure will continue into 2022/23.
- 11. Consideration is also being given to the impact COVID-19 has had on this area of spend. The main effects relate to an increase in the hourly rate and an increase in use of agency social workers. The regional Memorandum of Cooperation which aims to control the cost of agency staff has been unable to continue to operate due to service demand regionally. This is creating increased competition for available experienced social workers, which in turn has led to increased hourly rates across the region. In addition, the high agency rates of experienced temporary staff appear to have had an impact on the ability of Oxfordshire to recruit and retain our own permanent experienced social workers, although recruitment of newly qualified social workers remains stable.
- 12. In addition to the impact on staffing an increased overspend of £1.3m on placement spend is now forecast within Corporate Parenting. This has mainly been caused by a greater than anticipated increase in unit cost, particularly within residential placements, and a significantly increased spend on placement staff to child ratios to manage complex needs and risks. It also reflects an increased reliance on specialist agency staff within placements. Residential home placements regularly cost in excess of £0.2m per annum and therefore a small change in demand can have a significant effect on the budget. In addition to this the staff to child ratio and subsequent ratio of agency to core staff fluctuates considerably in response to individual children's needs and risks. Changes in staff to child ratios are unpredictable, making it difficult to forecast accurately; an increase in staffing for one child can result in an unexpected and steep increase in costs.
- 13. Further work is underway to understand the proportion of spend which relates to a change in children's needs, and the proportion relating to a change in market prices. The cause is likely to be a mix of the COVID-19 pandemic restrictions

resulting in higher costs for placement providers, a national increase in demand for placements and significantly increased needs and risks of a small proportion of children requiring solo placements and increased staffing ratios.

14. The national increase in demand and complexity of need presents a challenge in identifying appropriate placements to meet children's needs in a timely way. On average there are over 50 children nationally waiting for a welfare secure bed every day. In September 2021 there were 21 eligible children in the South East waiting for a tier 4 mental health bed. In the absence of specialist secure and tier 4 beds children with the most complex needs and risks are being cared for in mainstream settings requiring increased and specialist staffing as outlined above.

COVID-19 Impact

- 15. The effect of COVID-19 on spend within Children's Social Care will continue to be monitored. There is likely to be a longer-term impact on children and families due to the social and economic impacts of the pandemic. This is seen both in terms of increased demand and one-off costs, and also complexity of cases that front-line teams are experiencing. This is reflected in authorities across the country.
- 16. The most significant increase in demand to date has been seen within social care contacts which have much higher over the last 12 months and are expected to continue during much of this financial year. Although there is evidence that Family Solutions Plus is having an impact on slowing down the rate of new child protection plans and entries to care, there is still significant pressure due to a decrease in case closures, delays in court timescales, and increased complexity. This is leading to social workers' caseloads averaging 40% higher than they should be. At this stage there is no certainty on how long or how significant this increased demand will be, but it may also lead to an increase in children the council cares for over the medium term, which would affect the forecast for placement spend.
- 17. At present the forecast spend on COVID-19 for Children's Social Care is £1.5m, however there are a number of emerging pressures and it may be necessary to retain additional resources and spend for a longer period than currently forecast. Significant pressures include £0.3m for additional resources in the Multi Agency Safeguarding Hub and £0.8m for additional resources in Family Solutions Plus teams to increase capacity.

Dedicated Schools Grant (DSG)

High Needs DSG

18. In the budget agreed in February 2021 it was forecast that the High Needs DSG, which funds education for children and young people with Special Education Needs and Disabilities (SEND), would be in deficit by £11.7m in 2021/22. At present the forecast remains in line with the budget agreed in February 2021, but due to the previously reported technical adjustment to reserves the forecast variance is now £12.6m. As reported within the Education section of this report demand for SEN support is higher than had been anticipated, which is creating a pressure within services funded by High Needs DSG. This is likely to be affected by the COVID-19 pandemic and further work is being completed to identify the extent of this pressure.

Early Years DSG

19. Early Years DSG has been reported as breakeven but due to the previously reported technical adjustment to reserves, the variance is now £0.7m.

Contain Outbreak Management Fund (COMF)

20. In 2020/21 Children's Services was allocated £1.0m of COMF funding, with £0.4m spent by the end of the financial year, leaving a balance of £0.6m, which is forecast to be spent during 2021/22. Significant programmes include £0.3m to provide additional support to young people in supported accommodation and £0.2m to support children at risk of exploitation to access education.

Adult Services

21. The service is currently forecasting a breakeven position against a budget of £198.9m. The directorate forecast outturn includes £0.6m of costs relating to COVID-19.

Service Area	2021/22 Latest Budget	Variance September 2021	Variance August 2021	Change
	£m	£m	£m	£m
Better Care Fund Pooled Budget	82.9	0.0	0.0	
Adults with Care and Supporting Needs Pooled Budget	97.6	0.0	0.0	
Non- Pool Services	13.0	0.0	0.0	
Commissioning	5.4	0.0	0.0	
Total Adult Services	198.9	0.0	0.0	0.0

Better Care Fund Pooled Budget

- 22. The pool combines health and social care expenditure on care homes, activity relating to hospital avoidance and prevention and early support activities for older people and adults with physical disabilities.
- 23. A break-even position is reported for the council elements but there are on-going risks and uncertainties around activity levels and the on-going impact of the Hospital Discharge Scheme and COVID-19 pandemic on assessed needs and demand for care.
- 24. To date there are no costs arising as a result of COVID-19 that require additional funding in 2021/22. The longer run impact of COVID-19 on the level of need in the local population remains unclear.
- 25. The initial budget contributions to the pooled budget in 2021/22 need to be agreed by the Joint Commissioning Executive (JCE) in November 2021. Because of the on-going impacts of COVID-19, the temporary financial regime that the Oxfordshire Clinical Commissioning Group (OCCG) are currently working under has been extended until the end of the financial year. The expectation is that each

Annex C

Business Management & Monitoring Report September 2021

partner will continue to manage their own variations against the agreed contributions for the whole of the financial year this is to be formally agreed by the JCE in November.

- 26. Subject to agreement by the JCE (but assumed within the agreed budget) the council's share of the Better Care Fund held within the pool is £26.337m. This has increased by 5.3% (£1.3m) in 2021/22. An update on the agreed use of the additional funding supporting Adult Social Care services will be provided in future reports but it is anticipated that some of this funding will be used to support the cost of joint teams supporting hospital discharges.
- 27. The new Live Well at Home contracts for the provision of home care and reablement, became live on 1 October 2021. A dedicated mobilisation team is continuing to provide support to ensure the smooth transition into these new contracts. This will require up to £0.3m of extra one funding to backfill posts and cover other associated costs; the cost of this team is included within the current forecast position.
- 28. The Hospital Discharge Scheme continued to provide funding for up to 6 weeks for anyone who needs to be assessed on discharge from hospital or to avoid admission to hospital up until 30 June 2021. From 1 July 2021 to 30 September 2021 the scheme funded up to four weeks of care for people discharged from hospital. It has now been confirmed that this scheme will continue for the rest of the financial year. As at 30 September 2021 £0.5m of social care costs had been charged against the scheme relating to 2021/22.
- 29. The total number of care home placements is currently 8% lower than in February 2020, however activity began to increase over the first 6 months of the year and the forecast assumes the level of activity will continue to rise during the year, although the level of increase has slowed down during September with a net increase of 3 placements. This will continue to be monitored and reported on in subsequent months to assess the on-going impact of COVID-19 on levels of need. The average cost of a care home placement is currently £861 per week; if 20 new placements over and above the forecast level were made at the beginning of October 2021 those would cost an estimated £0.4m for the remainder of the year.

Adults with Care and Support Needs Pooled Budget

- 30. The pool supports a mix of health and social care needs for adults of working age with learning disabilities, acquired brain injury or mental health needs.
- 31. A breakeven position is currently being reported. There are currently no costs arising as a result of COVID-19 in 2021/22 that require additional funding.
- 32. The budget contributions to the pooled budget in 2021/22 will be agreed by the JCE in November 2021. The OCCG contribution to the pool is now proposed to be £18.3m a 3.9% increase on last year. The expectation is that the council will continue to manage the majority of any variation for the whole of the financial year. This is to be formally agreed by the JCE in November 2021.
- 33. There is a £0.2m forecast underspend for Learning Disabilities and High

Functioning Autism, this is has not changed from the previous month, this will continue to be monitored throughout the year.

34. An overspend of £0.2m relating to the cost of people with mental health needs falling outside the scope of the Outcome Based Contract with Oxford Health Foundation Trust (OHFT) is included within the forecast, with the council responsible for all of the £0.2m pressure under the current risk share arrangements. This is a £0.2m reduction from the last report.

Non-Pool Services

35. A breakeven position is being reported for all non-pool services. £0.6m of expenditure relating to costs arising from the COVID-19 pandemic is included in the forecast. This relates to additional staffing costs to support review activity.

Commissioning

- 36. A breakeven position is being reported.
- 37. The new Health, Education & Social Care team has now been live since March 2021. The recruitment process for a number of posts is on-going so agency staff are providing interim cover to allow service delivery to be maintained. It is still anticipated that the additional cost of these agency staff will be offset by staff vacancies currently existing within the structure.

COVID-19 Ringfenced Grants

- 38. A fourth tranche of Infection Prevention and Control (£1.8m) and Rapid Testing grant funding (£1.3m) to support adult social care providers with infection control and costs associated with rapid testing was required to be used to support eligible spend from 1 July 2021 to 30 September 2021. The £3.1m funding was received by the council in July 2021; 70% of the grants needed to be passed to care homes and domiciliary care providers by mid - August in line with the grant conditions. The remaining 30% was available to be used to support infection control and associated rapid testing costs on a discretionary basis and needed to be passed to providers on a similar basis to the third tranche. As of 30 September 2021, £1.1m of the mandatory element of the Infection Prevention and control grant had been passed onto providers, £0.9m to care homes and £0.2m to domiciliary care providers. In addition £0.7m of the discretionary element of the grant had also been allocated to providers; £0.2m on care home top-up sustainability payments, £0.3m on additional domiciliary care, £0.1m on external day services and £0.1m additional support for people using direct payments. £0.9m of the mandatory element of the Rapid Test grant funding was passed to care homes and £0.4m of the discretionary element was distributed to care homes and domiciliary care providers in accordance with the guidance.
- 39.£4.1m received through the third tranche of Infection Prevention and Control and Rapid Testing grant has been used to support eligible spend from 1st April 2021 to 30th June 2021. As at 30 June 2021, £1.5m of the mandatory element of the Infection Prevention and Control grant had been passed on to providers, £1.2m to care homes and £0.3m to domiciliary care providers. The £0.9m discretionary element has been used to provide additional funding for domiciliary care and external daytime support providers, as well as people using direct payments and

residential providers on the Oxfordshire homelessness pathway. $\pounds 0.06m$ of this grant was not utilised by the providers and has been repaid to the DHSC as stated in the guidance. $\pounds 1.0m$ of the mandatory element of the Rapid Test grant funding was passed to care homes. The $\pounds 0.7m$ discretionary element was distributed to care homes and domiciliary care providers in accordance with the guidance. $\pounds 0.01m$ of this allocation was unspent by the providers at the end of the grant period and will be repaid to the DHSC.

40. A fifth tranche of the Infection Control Testing Fund has been announced by the DHSC. This will cover the period between October 2021 and March 2022 and the expectation is that this is used to enable providers to put in place key measures to prevent the transmission of COVID-19 within and between care settings, including restricting staff movement between settings, and ensuring that staff are paid full wages when required to self-isolate. Oxfordshire will receive £4.8m in total; £2.9m will passed to adult social care providers to support infection prevention & control. £1.6m will be used to support costs associated with rapid testing and the remaining £0.3m to support care providers and social care staff with the costs associated with accessing COVID-19 and flu vaccinations.

Other Government Grants

41. The council will receive funding from the DHSC to facilitate timely discharges into the community to reduce the number of people with learning disabilities who are inpatients, which was used to help fund housing modification within the service – the level of funding for 2021/22 is awaited.

Reserves

- 42. Reflecting the position at the end of 2020/21, £10.7m is held in the Budget Prioritisation Reserve. £7.9m of this is available to be used to meet future cost pressures and risks within Adult Social Care (ASC) as well as transformation costs:
 - £4.7m to provide financial stability in the care market anticipated to be required as an outcome of the pandemic.
 - £2.2m for anticipated pressures relating to mental health needs (£1.2m) and transformation costs (£1.0m). £0.5m of the transformation element of this reserve is expected be used this year. The council have also been notified that 80% of the anticipated pressures, linked to mental health needs, will continue to be funded through the temporary NHS funding arrangements in the second half of the year resulting in the remaining 20% being funded from this reserve, £0.1m in 2021/22. The balance will be required to support anticipated pressures relating to mental health needs in 2022/23.
 - A commitment to contribute £1.0m towards ASC transformation costs in 2021/22.
- 43. The rest of the balance held relates to £2.5m that was released from the Council's contribution to the Better Care Fund Pool as a result of an additional contribution from the OCCG over the last two financial years. £2.0m will be used to support service risk and on-going costs in the pools relating to hospital discharges and other system pressures within 2021/22. The remaining £0.5m will be used to support mental health commitments with the Oxford Health Foundation Trust in

2021/22. Public Health

44. A breakeven position is reported. An underspend of £0.4m against the Public Health Grant will be carried forward through the Public Health reserves and used to fund eligible spend in future years.

Service Area	2021/22 Latest Budget	Variance September 2021	Variance August 2021	Change
	£m	£m	£m	£m
Public Health Functions	31.2	-0.4	-0.4	
Public Health Recharges	0.6	0.0	0.0	
Grant Income	-31.6	0.0	0.0	
Transfer to Public Health Reserve		0.4	0.4	
Total Public Health	0.2	0.0	0.0	0.0

- 45. There are no anticipated increases in costs or loss of income arising from the COVID-19 pandemic for this financial year but there is a possibility of a continuation of one-off savings due to reductions in service provision in line with national directives. Team members will be called upon for expert advice & Information, but costs of backfill will be covered from the Test and Trace Service Support Grant.
- 46. There is a £0.2m underspend relating to staff vacancies. The sexual health service is reporting a £0.1m underspend. There is also a £0.1m underspend being reported within substance misuse.
- 47. Following a change in the responsibility for all council funded Domestic Violence budgets, this is now reported as part of Public Health.
- 48. A risk to the service is noted related to the recent National Health Service (NHS) pay award as sexual health and public services for 0–19-year-olds are delivered by NHS providers. In 2021/22 the value of the pay award is not reflected in the grant creating a possible risk estimated at £0.4m, an update will be provided in future months.

Government Grants

- 49. The Public Health grant is £31.7m in 2021/22. This includes £0.2m awarded to Oxfordshire to support the delivery of routine commissioning in relation to preexposure prophylaxis (PrEP) for HIV.
- 50. The council has received a £1.1m ringfenced grant to help fund the provision of support within safe accommodation for victims of domestic abuse in 2021/22 in accordance with the new Domestic Abuse Act. To meet the requirements of the Act, a needs assessment has been undertaken, which will inform a draft strategy

on safe accommodation. This will direct how the funds are spent.

- 51. The Community Testing Programme grant (CTP) aims to accelerate a reduction in prevalence of COVID-19 by identifying asymptomatic cases through local testing. The county council has worked in collaboration with the district councils and testing in Oxfordshire began in early February 2021. The four Community Testing Sites closed at the end of June 2021 and a final grant claim for those arrangements was submitted to the Department of Health & Social Care (DHSC) in July 2021. The total cost of the four sites from April to June 2021 was £0.645m. Further to final invoiced costs being notified the council have overclaimed by £0.012m and are currently in communication with the DHSC as to how this will be paid back.
- 52. Since August 2021, home test kits have been available for collection from 38 libraries in Oxfordshire. In addition, there is an ongoing expression of interest process to identify community-based projects who can assist in handing out home test kits to disproportionately affected and underrepresented Groups. Grant funding is now capped based on the number of sites and hours of operation and additional costs incurred over and above existing budgeted activity need to be claimed from DHSC monthly. The submitted plan includes costs totaling £0.094m until the end of September 2021. Based on expected activity the anticipated costs are within the maximum capped grant funding for each month. A claim for £0.048m for costs associated with developing the new arrangements in July 2021 has been submitted to DHSC, with a further claim of £0.018m for costs incurred in August 2021. A claim for £0.011m will be made in relation to costs incurred during September.
- 53. The council has been awarded £0.2m from Public Health England in relation to Adult Weight Management to be spent in 2021/22. This will be used to support additional weight management programmes addressing dietary intake, physical activity, and behaviour change for adults who are overweight or living with obesity.
- 54. The Drug Treatment, Crime and Harm Reduction Grant (£0.4m) will be used to enhance support for criminal justice clients including additional harm reduction interventions such as needle exchange and Naloxone, additional residential treatment capacity, dedicated workers for the Criminal Justice pathway, and a further community based "Refresh Café" recovery project.
- 55. In 2020/21 the council received £2.9m Test and Trace Service Support Grant to support the mitigation against and management of local outbreaks of COVID-19, including the four key pillars of:
 - Surveillance of data and intelligence to monitor COVID-19 activity
 - Communication to support the minimisation of COVID-19 outbreaks
 - Rapid testing in Oxfordshire
 - Measures to interrupt further transmission
- 56.£1.6m is available to support eligible spend in 2021/22. As at the end of September 2021, £1.5m had either been spent or committed to meeting on-going costs of support to the four pillars. Final audit sign off is required by 30 June 2022.

Environment & Place

- 57. The Directorate is made up of three individual service areas: Planning & Place, Community Operations and Growth & Economy and a directorate management area, which includes the redesign budget saving. Each area is responsible for a specific function to ensure an effective delivery of Council's corporate objectives through an effective and efficient use of council's resources.
- 58.An overspend position of £1.3m (2.0%) is forecast compared to a budget of £61.2m.

Service Area	2021/22 Latest Budget	Variance September 2021	Variance August 2021	Change
	£m	£m	£m	£m
Planning & Place	3.3	0.0	-0.2	+0.2
Community Operations	58.9	0.3	0.3	
Communities Management	-1.1	0.0	0.0	
Growth & Economy	0.1	1.0	1.0	
Total Environment & Place	61.2	1.3	1.1	+0.2

- 59. The pressure within Growth & Economy is primarily due to a change in the anticipated amount of the staffing budget that can be capitalised and the reliance on agency staff, in some cases, to bring in skills that are currently not available within existing teams but critical for the delivery of the programme. The pressure also reflects the additional resources required for the delivery of the major infrastructure programme.
- 60. Community Operations are forecasting a higher level of activity than budgeted in respect of defect repairs based on benchmarking trends with previous years and long-term weather predictions. This is anticipated to be managed within the service through reduction in spend on other community operations activity not yet committed.

Customers, Organisational Development & Resources

61. The Customers, Organisational Development & Resources (CODR) Directorate works with members to set the direction of the Council and supporting the organisation through a period of significant change. This directorate is made up of six individual key service areas: Corporate Services, Human Resources & Organisational development, Communications Strategy & Insight, ICT & Digital, Culture & Customer Experience and Finance. The latest budget is £33.4m.

Annex C Business Management & Monitoring Report September 2021

Service Area	2021/22 Latest Budget	Variance September 2021	Variance August 2021	Change
	£m	£m	£m	£m
Corporate Services	2.4	0.0	0.0	
Human Resources &	3.2	0.0	0.0	
Organisational Development				
Communications, Strategy &	2.6	-0.3	-0.3	
Insight				
ICT & Digital	10.7	0.0	0.0	
Culture & Customer Experience	8.6	-0.2	-0.2	
Finance	5.9	0.2	0.3	-0.1
Total Customers, Organisational Development & Resources	33.4	-0.3	-0.2	-0.1

- 62. Culture & Customer Experience are forecasting an underspend of £0.2m and Communications, Strategy & Insight an underspend of £0.3m. These reflect various combined underspends in each area.
- 63. Finance are reporting an estimated £0.2m overspend position for September. This is primarily attributable to increased demand on the services resulting in an increase of resource within the function. Due to the immediate requirement to meet the existing demand there is also a temporary reliance on more expensive temporary staff to deliver the work required.

Commercial Development, Assets & Investment

- 64. This directorate is made up of three main service areas, Legal Services (including Procurement), Property Investment & Facilities Management and Fire & Rescue and a directorate management area.
- 65. Commercial Development, Assets & Investment directorate are currently forecasting an underspend of £2m (3.9%) position when compared to the budget of £50.7m.

Service Area	2021/22 Latest Budget	Variance September 2021	Variance August 2021	Change
	£m	£m	£m	£m
Property & Facilities Management	18.4	-2.1	-1.3	-0.8
Law & Governance	7.0	0.1	0.1	
Fire & Rescue and Community Safety	25.0	0.0	0.0	
CDAI Management Costs	0.3	0.0	0.0	
Total Commercial Development, Assets & Investments	50.7	-2.0	-1.2	-0.8

Annex C Business Management & Monitoring Report September 2021

- 66. The overall underspend position within the directorate mainly reflects the impact of an ongoing restructure in Property, Investment & Facilities Management services. The new structure is anticipated to be finalised by the end of the financial year and the service would be aligned towards a breakeven position. With restructure completed the directorate will focus on delivering a balanced budget by reviewing existing pressures and savings within the service. The change since last month mainly reflects the addition of a forecast underspend relating to repairs and maintenance activity for Joint Use Sports agreements. Work is continuing to assess the on-going impact so an update will be provided in the next report.
- 67. Legal services are currently forecasting a small overspend of £0.1m, although there has been no change in previously reported position. There is an underlying budget pressure due to increases use of external counsel (barrister) for children's social care court cases and the increased reliance upon locum provision due to recruiting difficulties.
- 68. Legal services are currently working to recruit to outstanding posts and reviewing external counsel spend on children's social care cases to assess how these pressures can be mitigated throughout the year.

Corporate Measures

General Balances

69. General Balances at 31 March 2021 were £34.6m and are forecast to be £33.2m by 31 March 2022, after taking account of the current forecast directorate overspend of £1.4m. This is £4.4m higher than the risk assessed level of £28.8m.

Reserves

70. As set out in Annex C-3 Earmarked Reserves are forecast to be £169.4m at 31 March 2022. The increase of £0.3m since the last report relates to a revised forecast for the use of Adult Social Care funding being held in the Budget Prioritisation Reserve. Details of the use of the Adult Social Care Funding is set out in paragraphs 42 and 43. The change also reflects the transfer of the Tax Income Guarantee Grant being transferred to the Business Rates Reserves as agreed by Cabinet on 19 October 2021.

Use of COVID-19 Reserve

71. To date, £1.4m has been transferred to Children's Services to support pressures in Education and Children's Social Care along with the further drawdown of £1.0m agreed by Cabinet on 21 September 2021 to cover COVID-19 expenditure incurred by directorates between April and June 2021. A total of £8.9m is forecast to be spent in 2021/22. After this has been transferred there will be a balance of £23.4m which will be used to fund any additional commitments in 2021/22 and expected additional costs in 2022/23 and 2023/24. It remains difficult to predict what further resources will be needed during the autumn/winter and the forecast will be updated in future reports.

Grants

72. As set out in Annex C-3 government grants totaling £416.1m will be received by the Council during 2021/22 and have increased by £0.1m since the last report. The changes this month reflects an additional £66,000 grant for the Role of the

Virtual Schools Head.

Medium Term Financial Strategy Savings

- 73. The 2021/22 budget includes planned directorate savings of £16.1m. £12.1m or 75% are expected to be delivered by year end.
- 74.£2.6m or 16.4% are rated amber. These mainly relate to the £2.0m savings in Adult Social Care reducing the demand pressures in the pools by 1%. By increasing the focus on maximising use of residential and nursing beds available through existing block contracts and minimising the length of any vacancies and looking for creative ways to meet needs at lower cost while also helping people to be as independent as possible spend was reduced by around 1% in the second half of 2020/21 with an on-going full year effect of £2.0m from 2021/22. The process to maintain the saving is on-going so the saving is currently shown as amber until there is more certainly about the position later in the year. However, the forecast spend across the pools is being managed within the funding available.
- 75.£1.3m or 8.3% are rated red. £1.2m relate to savings within Environment and Place and predominately relate to the delay in the realisation of the Community Redesign saving of £1.2m. In-year mitigations are being found to minimise the financial impact.
- 76. The budget pressures arising from the non-delivery of savings form part of the Directorate positions reported above.

Strategic Measures

- 77. The budgeted interest receivable for in-house Treasury Management during is £1.9m, based on an average interest rate of 0.58%. Whilst interest rates remain very low, it is unlikely that interest rate will be achieved, however as cash balance are higher than originally expected, the forecast outturn remains in line with budget.
- 78. Externally managed funds in Strategic Pooled funds are forecast to return £3.8m, in line with budget. Financial markets are expected to remain volatile in the near future, and there remains a risk that there could be fluctuations to the capital value of the funds, however the statutory override for movement in value of such funds mean that any fluctuations will be reversed out of the general fund.
- 79. The corporate contingency budget for 2021/22 is £5.6m. The government announced a national pay freeze as part of the Spending Review in the Autumn 2020, but this was pending negotiations with the individual pay awarding bodies. On 14 May 2021 an offer of 1.5% for the Green Book pay award was made by the National Employer's for Local Government. This offer has been rejected by the Unions. The National Employers have increased this offer to 1.75% which the unions are considering. A 1.75% increase would be a call of £2.8m on the contingency budget. A similar offer has been made in respect of Firefighters which has been accepted by the unions and was paid to staff in September 2021 at a cost of £0.3m. There has also been an increase in the inflation rates compared to expectations when the budget was set in February 2021. This has led to the cost of contract inflation increasing by £0.3m above budget. The total estimated calls on the corporate contingency budget are approximately £3.4m, which is within the

budget available.

Debt

Corporate Debtors

- 80. The 120-day invoice collection rate was above the 95% target for the second month at 96%, a slight drop from last month; however, the average year to date is now 0.2% under target. The value of invoices collected for the same period was 98.8%.
- 81. Debt requiring impairment increased this month from £0.36m to £0.37m and is now £0.07m above target. Ten debtors account for 55% of the total bad debt. The top case makes up 26% of bad debt and as previously reported the service is actively engaged in dispute resolution aiming for resolution by December 21. Four further cases within the top ten debtors are due to be resolved in the next period, this is forecast to reduce the debt requiring impairment.

Adult Social Care Debtors

- 82. The 120-day invoice collection rate remained below the 92% target at 88.6%. Following a review of a direct debit uptake rates by the service in the first quarter, collection of invoices by direct debit remained at 59% this period; a 0.5% increase in quarter 2. Further work is underway to introduce measures to increase the overall collection rate.
- 83. Debt requiring impairment increased this month to £3.65m, £0.96m above the current Adult contributions' impairment balance and £0.66m more than the same period last year. As reported last month, the service continues to work through a batch of financial assessments defaulted to a full cost charge that may be inflating bad debt levels. This work is being completed using existing resources leading to an increase in the number and value of open debt cases, in turn this continues to impact overall recovery rates. New procedures introduced in August this year continue, however the impact of the previous approach is forecast to impact figures through quarter 3.
- 84. Five complex cases referred to legal services, with a value of £0.3m, have been referred this period to outside counsel for opinion.
