

Health Overview & Scrutiny Recommendation Response Pro Forma

Where a joint health overview and scrutiny committee makes a report or recommendation to a responsible person (a relevant NHS body or a relevant health service provider [this can include the County Council]), the Health and Social Care Act 2012 and the Local Authority (Public Health, Health and Wellbeing Boards and Health Scrutiny) Regulations 2013 provide that the committee may require a response from the responsible person to whom it has made the report or recommendation and that person must respond in writing within 28 days of the request. This may be extended at the wish of the Committee.

This template provides a structure which respondents are encouraged to use. However, respondents are welcome to depart from the suggested structure provided the same information is included in a response. The usual way to publish a response is to include it in the agenda of a meeting of the body to which the report or recommendations were addressed.
