<p>2. Questions from County Councillors</p> <p>Councillor Roz Smith</p> <p>“When Phases 1 and 2 of the London Road bus lane improvement projects were completed a problem with drainage for surface water was identified. The stretch of London Road outside St Andrews School is particularly dangerous in heavy rain. This has been acknowledged by officers and last year I witnessed some survey work being carried out on the stretch from Barclays Bank to Wharton Road. When can my residents expect the remedial work to be undertaken?”</p> <p>Supplementary</p> <p>“Although pleased at the news work</p>	<p>Councillor David Nimmo-Smith, Cabinet Member for Environment</p> <p>“Upon investigation of the drainage system outside St Andrews School initially it has been found that the carrier drain under the pedestrian crossing has collapsed. This collapse is restricting the discharge from the highway to the outfall, the result being the flooding after heavy rain. We hope to start work on repairing this problem within the next month and will use this opportunity to see if there are any other issues. If additional major drainage repairs are required we would hope to use the proposed road closure which will be starting from May onwards to reduce disruption to local residents and road users”</p> <p>Response</p> <p>“I will respond further to Councillor</p>	<p>DEE(MK)</p>
