

CABINET – 17 MARCH 2020

ITEM 5 – PETITIONS AND PUBLIC ADDRESS

Public Address

The following requests to address the meeting have been agreed by the Chairman:

Item	Speaker
Item 7 – Business Management and Monitoring Report	Councillor Liz Brighthouse, Chairman of the Performance Scrutiny Committee Councillor Glynis Phillips, Shadow Cabinet Member for Finance
Item 9 – Oxford Local Cycling and Walking Infrastructure Plan	* Councillor Bob Johnson, local councillor for Kennington & Radley Robin Tucker, Cycling UK Oxfordshire Simon Hunt, Cyclox
Item 11 – Oxfordshire Minerals and Waste Local Development Scheme	* Councillor Bob Johnson, local councillor for Kennington & Radley

* Councillor Bob Johnston is unable to attend on medical advice. He has sent the following written statements instead:

Item 9

I fully support the recommendations on this item. In respect of Kennington and Radley I hope that in the fullness of time there will be a network of safe and secure network of cycle tracks from the centre of Abingdon to the centre of Oxford, and which will go through the Division. This will build on the excellent work done on the Sustrans track which currently runs from Sandford Lane to Folly Bridge. What is unclear to me currently is how to devise a route from the top of Church Street in Radley to the Abingdon ring road. My heartfelt plea for any of the above, and indeed the rest of the County networks, to be properly maintained. Cyclists will not use poorly maintained track, and who can blame them. Similarly please ensure that they are kept free of nettles and brambles during the growing season. The latter are particularly route limiting in summer.

Item 11

Again I fully support the recommendations. It will protect the whole County from speculative applications for mineral extraction. This is particularly relevant to Kennington and Radley in as much as a local land owner has made public his desire to reactivate the Radley ROMP. I am advised that a complete and adopted strategy will make his speculative desire that much more difficult to achieve.
