

## Draft Council Tax and Precepts 2023/24

### Council Tax Data

1. In order to set its budget for 2023/24, the council needs to calculate its council tax requirement. This is the amount that the council needs to raise from council tax to meet its expenditure after taking account of the income it will accrue from the following
  - (a) the amount to be received from specific grants.
  - (b) the amount to be received from Revenue Support Grant and the Business Rates Top Up under the Business Rates Retention Scheme.
  - (c) the amount to be received for the County Council's share of Non-Domestic Rating Income.
  - (d) any surpluses/shortfalls on the Council Tax Collection Funds and Business Rates Collection Funds for earlier years and the estimated position for the current year.
  - (e) the amount expected to be received from fees, charges and contributions.
2. In order to set its council tax for the forthcoming year, the council needs to calculate its council tax requirement and have available the council tax base, expressed in terms of Band D equivalent properties.
3. Based on the final information on funding and assuming a council tax requirement of **£466,654,610.58** as shown in the proposed Medium Term Financial Strategy (Section 4.1) the calculation of the Band D Council Tax for 2023/24 is as follows:
