	ltem	Action/Recommendation	Lead	Progress update
1	Minutes of 23 September 2022	Health partners to be invited to the next OCC scrutiny training	Tom Hudson / Omid Nouri	To be actioned in the new municipal year for 23/24.
				In progress
				Update – OCC scrutiny are working up a training proposal with CfGS.
	24 November 2022 Meeting			
2	Primary Care	Recommendation:	Julie	Progress/update response:
		Specified roles are filled within the ICB with the primary responsibility to work with District Councils at Place Level to coordinate use of CIL funds held by the ICB and from executed Section 106 funds for Primary Care.	Dandridge/ Daniel Leveson	The ICB have managed to recruit a Primary Care estates manager who will have a key role in working with Districts in terms of planning for new housing developments. The successful candidate starts in December 2023. Unfortunately, recruitment was delayed due to lack of suitable candidates.

	Item	Action/Recommendation	Lead	Progress update
3	Cllr Barrow's infection control report	OCC carries out a regular review of current infection control procedures in care homes and the support provided.	Karen Fuller, OCC	This is built into our routine procedures in relation to infection control and monitoring outbreaks. OCC works in partnership with Oxford Health care home support service, CQC and UKHSA. UPDATE – Subsequent Care Home Visits to be arranged in conjunction with the Director for Adult Social Care.
	10 March 2022 Meeting			
4	Access and Waiting Times	Information is supplied on the new elective care access offer across the BOB footprint (the provider collaborative)	Omid Nouri/Titus Burwell	BOB ICS Elective Recovery plan & provider collaborative would need to be presented by BOB ICS colleagues - In progress Update – A scope is being drawn up for Titus Burwell, Chair of BOB Elective Recovery Backlog Group, to brief the Covid-19 Elective Recovery Backlog group on the subject with a particular focus on Symptomatic breast cancer 2WW and in respect of Urological Cancer referrals.

	Item	Action/Recommendation	Lead	Progress update
5	Access and Waiting Times	That Members meet separately with James Scott to explore workforce challenges across Oxfordshire/the NHS	BOB HOSC, BOB ICS	Eddie and OCC BOB HOSC Members to ask for the item to be placed on the BOB HOSC Work Programme. In progress Update – To be considered as part of future
6	Chairs Update	That Members of the Committee come forward in which to develop a glossary of NHS acronyms.	Omid Nouri/ Cllr Nigel Champken- Woods	discussions amongst the BOB HOSC Cllr Champken – Woods came forward at the last meeting to start an early draft. It was identified that Wokingham's HOSC glossary as a good model to follow. In progress This is currently being collated with Cllr Champken-Woods and will be appended at the back of HOSC agendas once finished.
	14 July Meeting 2022			
7	Integrated Improvement Programme	Establish a sub group on the Integrated Improvement Programme to provide NHS / OCC colleagues the opportunity to engage with HOSC outside of formal Committee meetings (as well as in addition to). It should cover all aspects of comms and engagement and any issues relating to services at Wantage.	Cllrs Hanna, Edosomwan, Barrow and Barbara Shaw Omid Nouri	In progress – UPDATE- The Integrated Improvement Programme met as a Member-only forum on 20 September 2022 and agreed to meet with a ICB representative in respect of the ICB's involvement in the IIP. The Group also agreed that a group would engage with representatives at OH in respect of the maternity closures and maternity closures across Oxfordshire. Terms of Reference for the Group will be drawn up for engagement in respect of the consultation and delivery plan relating to the IIP.

	22 September 2022 Meeting			
8	Action and Recommendation	NHS England Health and Justice to fill out the	Lisa Briggs	<mark>In Progress -</mark>
	Tracker	Committee's substantial change toolkit in relation to the SARC in Bicester; this is to then be reviewed by Members via email, with a view to meeting the Commissioner in person.		The Substantial Change Toolkit form has been received and was considered by Cllrs Champken-Woods, Hanna and Heywood. It was considered that there was no substantial change. However further information in respect of the service has been requested and waiting a response.
	24 November 2022 Meeting			
9	Primary Care	The Committee is informed as to how much Community Infrastructure Levy funding has been received by the Oxfordshire CCG and subsequently the BOB ICB (from Oxfordshire), the amounts received from the 5 individual District Councils, how much of those CIL funds have been spent, which health related CIL funded projects have been commissioned; and what projects have been completed or are in progress using executed Section 106 funds.	Julie Dandridge	In progress – The ICB has been reminded of these questions and will feedback to the Committee outside the formal Committee process. UPDATE – Julie Dandridge to provide an update on a list in respect of where the funds currently sat, time restrictions and other obligations.
10	Serious Adult Mental Health	A workshop on serious adult mental health is co- produced to allow further Committee exploration of the area.	Omid Nouri, OH, Karen Stephen Chandler	In progress – To be scoped after the 9 <sup>th</sup> of February 2023 HOSC Meeting.
	9 February 2023 Meeting			
11	SCAS Improvement Programme Update	SCAS' performance data be regularly reviewed by the Committee's Covid-19 Elective Recovery Sub-Group.	Omid Nouri/SCAS	In progress- The Committee is to be advised when the wait-time performance data can be broken

	Item	Action/Recommendation	Lead	Progress update
				down into (Middle Layer Super Output Areas) MSOA level. Likely to be Autumn 2023
12	Committee Work Programming	A Work Programming Meeting be arranged with all Committee Members	Omid Nouri/ Tom Hudson	In progress – a partial work plan has been suggested, but in light of the appointment of a new Scrutiny Officer the completion of the new work plan is to take place once they are in post and are better placed to help the committee deliver it.
	11 May 2023 Meeting			
13	Dentistry Provision in Oxfordshire	To collaborate with the Place Based Partnership, Public Health, and providers with a view to creating a base line dentistry data set that will mean local improvements to poor dental health of residents can be achieved and clearly communicated.	Hugh O' Keefe NHSE/Daniel Leveson BOB ICB	Response: The Oxfordshire Joint Strategic Needs Assessment (2023) contains information about the oral health of 5 year olds in the county. This information is derived from national epidemiological surveys. The ICB will work with Public Health colleagues to review and update this information. The ICB is developing a Primary Care strategy including dental services. This will include a review current data and the development of datasets to inform future commissioning plans. There is a strong link between socio-economic factors and health. The aim is to develop a strategy outlining how primary care via service delivery and partnership working with other agencies will improve the health of the

	Item	Action/Recommendation	Lead	Progress update
				population with oral health to be a key element of the strategy.
14	Dentistry Provision in Oxfordshire	To resolve any remaining uncertainty regarding the local flexibilities available to the ICB, and to consider investment of the underspend in Oxfordshire in targeted action to improve access to health and better serve Oxfordshire's children and residents with the greatest need.	Hugh O' Keefe NHSE/Daniel Leveson BOB ICB	Response: The BOB ICB Flexible Commissioning pilot commenced on 1 <sup>st</sup> June 2023. The pilot scheme will run to 31 <sup>st</sup> March 2024 and is designed to support access to NHS dental care for patients who have struggled to access NHS dental care. The scheme supports access for patients who have not attended a local dental practice for 2 years; who have relocated to the area; Looked After Children, families of armed forces personnel, asylum seekers and Refugees. Practices can also see 'other' patients of they believe it to be clinically appropriate. It allows practices to convert up to 10% of their contractual capacity from the delivery of activity targets to access sessions, where more time can be set aside for patients likely to have higher treatment needs. 30 practices in BOB are taking part in the scheme (18 from Oxfordshire) with plans to provide nearly 3,000 Flexible Commissioning access sessions in the period July 2023 to March 2024. In the first 4 months about 900 sessions were provided with 3,000 patients attending (3,500 attendances). About 70% of patients attending to date have not attended a dental practice for 2 years; 14% have relocated to the area; 12% 'other' (includes patients who have

	Item	Action/Recommendation	Lead	Progress update
				been unable to access care, urgent patients, maternity, patients with an on- going clinical need that requires dental intervention, vulnerable patients, children's emergency trauma and cancer patients needing dental treatment as part of their care). 4% of attendances have been from Looked After Children, families of armed forces personnel and asylum seekers and refugees.
				The service is subject to on-going review and development. National guidance in respect of Flexible Commissioning was issued in October
				2023. Whilst access to NHS dental services is continuing to improve, some capacity has been lost following decisions by some practices to leave the NHS or reduce their NHS commitment. The ICB is working with local practices on a re-commissioning plan to replace this capacity from 2023-24 onwards.
	21 September 2023 Meeting			
15	Oxfordshire Healthy Weight	Recommendation: To ensure adequate and consistent support as part of secondary prevention for those living with excess weight; and to improve access to, as well as awareness of, support services that are available for residents living with excess weight.	Derys Pragnell	Recommendation Accepted: Initial Response (additional progress update response to be provided in April 2024):

Item	Action/Recommendation	Lead	Progress update
			We currently commission two healthy weight services at Local Authority level, one that works with adults and another working with children. We also link closely with partners (NHS) who offer services at tiers above and below our own with a view to offering a seamless pathway. We identified some gaps in service as part of the recent Health Needs Assessment (HNA) on Healthy Weight. The current contract is coming to an end and we are planning to commission an 'all age service' with some additional elements to meet the gaps identified in the HNA. We are also planning a review and refresh of opportunities to raise awareness of support that is available.
			Update April 2023: We are in the process of recommissioning an all age, Tier 1 & 2 service, and will know the outcome by late Spring 2024. The service will commence on 1st September 2023. The new Tier 1 and 2 service will include a range of programmes for residents to chose from, as well as developing innovation pilots with specific populations as identified by the HNA, to test and learn what works with these residents to support achieving a healthy weight. Communications and campaigns will be part of this contract to increase awareness of the service for residents and professionals.

	Item	Action/Recommendation	Lead	Progress update
16	Oxfordshire Healthy Weight	Recommendation: To ensure effective support for ethnic groups that are more likely to develop excess weight, and to raise awareness amongst these groups of the support available to them.	Derys Pragnell	Recommendation Accepted: Initial Response (additional progress update response to be provided in April 2024): The current healthy weight service has specific programmes for ethnic groups who are more likely to develop excess weight. This includes innovation pilots working in mosques, women only sessions, and tailoring content to be specific (e.g. on food types) The new service will build on this learning/modelling and is likely to have community development as a delivery component within key priority areas and populations, including ethnically diverse. Update April 2023: This detail remains the same. We can provide specific numbers and details of groups if HOSC require
17	Oxfordshire Healthy Weight	Recommendation: To work on providing support to the parents, carers, or families of children living with excess weight, and to help provide them with the tools to help manage children's weight.	Derys Pragnell	Recommendation Accepted, HOSC will receive future progress update in April 2024. Update April 2023: Current Tier 1 and 2 services commissioned by public health have bespoke services for children. From September 2024 the new service will have innovation pilots to test and learn what works with cohorts aged 0-3 and teenagers. In addition, a range of digital

			and print resources for adults and families will be available from the provider to support a healthy weight. The provider will also be part of wider systems working, linking up a range of partners, for example NCMP and 0-19 providers.
			A children's healthy weight toolkit for health, social and voluntary/community professionals is in redevelopment.
			A 'You Said, We Did' response has been developed for Early Years professionals following a survey and interviews to support knowledge and skills in healthy eating. This includes Lunchbox Planners, Child Feeding Guide Training and a range of other resources.
			Finally, Public Health have led a working group to develop a suite of resources and assets to support uptake of Healthy Start across the County, including in ethnic minority groups. This has recently gone live.
Oxfordshire Healthy Weight	Recommendation: To explore avenues of support for residents who may struggle to afford healthy diets in the context of the cost-of-living crisis.	Derys Pragnell	Comment on Recommendation: This should be an action/link for Food Strategy work across Oxfordshire, which is led by Laura, Rushen, Senior Policy Officer at OCC– each District Council has been commissioned to undertake work for their District.
	Oxfordshire Healthy Weight	To explore avenues of support for residents who may struggle to afford healthy diets in the context	To explore avenues of support for residents who may struggle to afford healthy diets in the context

	Item	Action/Recommendation	Lead	Progress update
				Action plans have been developed and adopted by the following councils: Cherwell – 4 March Oxford – 13 March West Oxfordshire – 9 March South Oxfordshire and Vale of White Horses' action plans are being finalised.
20	Oxfordshire Healthy Weight	Recommendation: In light of recent findings relating to the risks of excess weight medication (GLP-1 receptor agonists), it is recommended that the BOB Integrated Care Board review the availability of these medications and any associated risks; and to update the Committee on this.		A separate response to this recommendation will be sought from BOB ICB.
21	Oxfordshire Healthy Weight	Recommendation: To orchestrate a meeting with HOSC, to include senior Planning/Licensing officers, Chairs of Planning Committees of the District Councils and lead officer responsible for advertising/sponsorship policy as well as the relevant Cabinet Member to discuss the planning and licensing around the presence of fast-food outlets in certain areas around the County and the advertising of HFSS products.	Derys Pragnell/ Omid Nouri	Health Scrutiny Officer (Omid Nouri) to liaise with relevant officers to facilitate this meeting in the near future. Update April 2023: We believe this meeting was being co- ordinated by HOSC. We have met several times with planning leads and provided detailed backing information and evidence to support each District/City Council to put in place a policy to restrict Hot Food Takeaways if they choose. Public Health have commissioned Bite Back to develop a youth manifesto on food environments for Oxfordshire, including focusing on vending and HFSS advertising in different locations across the County.

	ltem	Action/Recommendation	Lead	Progress update
22	Health and Wellbeing Strategy	Recommendation: To ensure careful, effective, and coordinated efforts amongst system partners to develop an explicit criteria for monitoring the deliverability of the strategy; and to explore the prospect of enabling input/feedback from disadvantaged groups as part of this process.	David Munday	<ul> <li>Recommendation Accepted:</li> <li>Initial Response (additional progress update response to be provided in April 2024):</li> <li>The Health and Wellbeing board has committed to the development of a delivery plan and outcomes framework for this new HWB strategy. This is to ensure the strategy is delivered by the partnership. We expect that an initial version of this will be presented to the HWB in March 24 and it will build on the strong public engagement that has already occurred in the strategy formation to date.</li> <li>Update April 2023:</li> <li>The Health and Wellbeing Strategy</li> <li>Outcomes Framework was agreed at the Health and Wellbeing Board in March 2024. The Outcomes Framework has broken each of the 10 priorities down into more tangible Shared Outcomes- between 3 and 5 of these per priority. It also maps existing programmes of work against each of the 10 priorities. The Framework also lists suggested metrics to monitor delivery-these are Key Outcomes (a measure of the strategic impact we want to see) and Supporting Indicators (the process measures that support achievement of the strategic change).</li> <li>Finally, the Outcomes Framework lists the governance forums within the Oxfordshire</li> </ul>

Item	Action/Recommendation	Lead	Progress update
Local Area Partnership SEND	Recommendation: For Leadership over the Partnership and of Children and Young People's SEND provision to be explicitly set out and communicated clearly to families and all stakeholders; as well as clear measures of how leadership will be developed and demonstrated at all levels, and to demonstrate how new ways of working with stakeholders will put families at the heart of transformation.	Stephen Chandler/An ne Coyle/Rachel Corser	System that is the primary partnership responsible for delivery against each of the priorities. It is these forums and work programmes they have oversight of that ensure relevant engagement with residents over the monitoring of progress in their work areas. It has been agreed by the board that it will review progress, data against the metrics and received narrative update on only one part of the strategy at each of its quarterly meetings, so that over the course of a 12 month work programme it will have reviewed once delivery against all parts of the strategy. Full papers on the Outcomes Framework are available on HWB March agenda. Initial Response (additional progress update response to be provided in April 2024): Partnership leadership, assurance, and oversight of SEND provision is by the Oxfordshire SEND Improvement Board (SIB). The Board provides transparent visibility of progress, constructive and robust challenge, as well as celebrating what is working well and improving. The progress of improvements will be routinely scrutinsed by appropriate scrutiny arrangements (People Scrutiny, HOSC and ICB Quality Group).

Item	Action/Recommendation	Lead	Progress update
			Operational delivery of the Priority Action Plan (PAP) is via the Partnership Delivery Group (PDG), supported by time-limited Task and Finish groups. SIB, PDG, and Task and Finish groups all include Parent/ Carer representation. Continued improved communication with families and stakeholders is a key focus of our SEND action planning. It underpins our governance arrangements, is a key priority within the PAP, and is a focus area of our Working Together Task and Finish group.
Local Area Partnership SEND	Recommendation: To ensure good transparency around any action planning and the improvement journey for SEND provision for Children and Young People, and to develop explicit Key Performance Indicators for measuring the effectiveness of improvements that are open to scrutiny. The Committee also recommends for more comprehensive action planning after the publication of the initial action plan requested by Ofsted, and for this action planning to be made fully transparent. The SIB will consider at its inaugural meeting how best to ensure information easily and publicly available.	Stephen Chandler/An ne Coyle/Rachel Corser	Initial Response (additional progress update response to be provided in April 2024): The Priority Action Plan includes development of an Integrated Local Area Partnership SEND dashboard, based on partnership KPIs, with performance overseen by the SIB. As above, ongoing PAP action planning is operationally overseen by PDG and Task and Finish Groups. PDG reports monthly to the SIB.
Local Area Partnership SEND	Recommendation: For the Leadership to adopt restorative thinking and practices with utmost urgency to reassure affected families, and for this thinking to be placed at the heart of any co-production exercises	Stephen Chandler/An ne Coyle/Rachel Corser	Initial Response (additional progress update response to be provided in April 2024): Restorative Approaches are well- established within Children's Services. Co- production with children and families is at

I	ltem	Action/Recommendation	Lead	Progress update
		to help families feel their voices are being heard as well as for the purposes of transparency.		the heart of PAP and wider action planning. As noted, they are represented within all leadership & delivery bodies for SEND improvement.
	Local Area Partnership SEND	Recommendation: To ensure adequate and timely co-production of action planning to improve SEND provision, and for the voices of Children and their families to be considered in tackling the systemic failings highlighted in the report. The Committee also recommends that the Partnership considers timely allocation of seed funding for the development of co-production involving people with lived experience; and for joint commissioning of training and alternative provision across Oxfordshire, involving multi-agency stakeholders, the voluntary sector, and families.	Stephen Chandler/An ne Coyle/Rachel Corser	Initial Response (additional progress update response to be provided in April 2024): SIB responsibilities include ensuring that co-production is embedded in the culture of SEND services. Our Multi Agency Quality Assurance (MAQA) forum has the purpose of setting out consistent, service specific processes for the quality assurance of Education, Health, and Care Plans, ensuring that good practice and learning is shared, informs training and professional development for all professionals involved in the process, underpinning our vision for shared responsibility for improving outcomes, on the improvements achieved and next steps. Partnership training, and impact measures, are included in the PAP. All PAP actions are time-specified, ranging from December 2023 to post-July 2025, dependent on prioritisation and practicability.

ltem	Action/Recommendation	Lead	Progress update
Local Area Partnership SEND	Recommendation: To continue to improve working collaboration amongst the Local Area Partnership to integrate support mechanisms and services as effectively as possible, and for rapid improvements to be demonstrated on clear and efficient information and patient-data sharing on children with SEND.	Stephen Chandler/An ne Coyle/Rachel Corser	Initial Response (additional progress update response to be provided in April 2024): There are existing arrangements to enable the sharing of information across partners. The effectiveness of these will be considered as part of the improvement journey.
Local Area Partnership SEND	Recommendation: For every effort to be made for children and young people with SEND to receive the support that is specifically tailored toward and appropriate to their own needs and experiences; and for those involved in providing support services to be aware of the additional/ alternative services available which a child may also need a referral to. It is also recommended that improvements in one-to-one communications with families should be prioritised by Oxfordshire County Council, using the budget agreed by cabinet immediately following the Ofsted report.	Stephen Chandler/An ne Coyle/Rachel Corser	Initial Response (additional progress update response to be provided in April 2024): Priority actions within the PAP include co- production of both refreshed Local Offer and development of local area partnership early help and early intervention strategy. Together with improved EHCP assessment process, and Team Around the Family, this will enable the delivery of needs-led provision and the progression of outcome led plans with families. As noted above (Paragraph 8), continued improved communication with stakeholders and families is a key priority.
Local Area Partnership SEND	Recommendation: To consider the use of digital resources for enablement, including at an individual level; and to ensure EHCPs are up to date and that they constitute living documents for families.	Stephen Chandler/An ne Coyle/Rachel Corser	Initial Response (additional progress update response to be provided in April 2024): Timeliness and quality of EHPCs, along with improved parental access to the digital portal, are addressed within PAP item 3. Actions include ensuring accurate, timely, and effective assessment, and effectively meeting needs, particularly at

Item	Action/Recommendation	Lead	Progress update
			points of transition. Assessment timeliness is improving, despite increasing demand. Timeliness of completion within 20 weeks has improved from 40% in June 2023 to 50% in the last month.
Local Area Partnership SEND	Recommendation: For SEND commissioning to be developed using the Ofsted report as a baseline, and to place person-centred mental and physical health of children and their families with SEND at the centre of decisions on how funding is spent to maximise social value. The Committee also recommends for the Local Area Partnership to map all funding sources available for, and to explore joint commissioning of services and training that could improve the overall health and wellbeing for children with SEND.	Stephen Chandler/An ne Coyle/Rachel Corser	Initial Response (additional progress update response to be provided in April 2024): PAP priority actions include a focus on improved commissioning and strong relationships with commissioned providers, to improve capacity, meet demand, and meet the needs of children, young people, and their families. The PAP is also focused on ensuring commissioning arrangements support timely decision making and transition arrangements, and that there is a multi-agency approach to meeting the needs of children with emotional and mental health difficulties. The Leadership and Partnership Task and Finish group has responsibility for integrated commissioning of SEND services. The Oxfordshire Joint Commissioning Executive, which plays a key role in the delivery of many Priority Action Plan actions, reports into the Partnership Delivery Group.
Local Area Partnership SEND	Recommendation:	Stephen Chandler/An	Initial Response (additional progress update response to be provided in April 2024):

Item	Action/Recommendation	Lead	Progress update
	To ensure that there is clarity of information on any physical or mental health services for children with SEND, to reduce the risk of confusion and lack of awareness of such services amongst parents, carers or families of children who require support for their mental or physical health.	ne Coyle/Rachel Corser	A local area pathway is being developed for children and young people with emotional wellbeing and mental health concerns. The i-THRIVE framework (an integrated, person-centred, and needs-led approach to delivering mental health services for children, young people, and their parents/carers) will be linked to the Early Help Strategy and Team Around the Family.
Local Area Partnership SEND	Recommendation:         To exercise learning from how other Counties and Systems have provided well-coordinated and effective SEND provision; particularly where measures have been adopted to specifically reduce the tendency for poor mental or physical health amongst affected Children and Young People.	Stephen Chandler/An ne Coyle/Rachel Corser	Initial Response (additional progress update response to be provided in April 2024): Our response to the SEND inspection, including development of PAP and KPI dashboard, has been informed by learning from other local authorities. Children's Services senior leadership bring a wealth of experience in delivering transformation and service improvement within other local authorities. This includes both the recently appointed independent chair of the SIB, Steve Crocker (Former President of Association of Director of Children's Services) and new SEND/ Children's Services Improvement. We have invested in an additional Assistant Director for Early Help & Prevention, and Strategic Lead for Specialist Projects. Deputy Directors for Children's Social Care/ Education are likewise experienced.

ltem	Action/Recommendation	Lead	Progress update
Local Area Partnership SEND	Recommendation: To ensure that staff involved in Health, Care, Education, and any relevant Voluntary Sector organisations are sufficiently trained and aware of children that may be neuro-divergent, have a learning difficulty or a disability (SEND); and for such staff to be adequately aware of the support and resources available, and the processes for referring such children for any relevant mental or physical health services that they might require. Recommendation: For HOSC to continue to follow this item and to evaluate the impact of any changes or improvements made, with specific insights into the following; the Partnership's Action Plan as requested by HMCI; the overall measures taken to address the concerns raised by the Ofsted/CQC inspection; the progress made by CAMHS in reducing waiting times for treatment of children with SEND who require mental health support; and on how the NHS is working to increase the overall acquisition and availability of data on SEND children's mental health from key mental health providers.	Stephen Chandler/An ne Coyle/Rachel Corser Stephen Chandler/An ne Coyle/Rachel Corser	Initial Response (additional progress update response to be provided in April 2024): As noted above, partnership training is embedded within the PAP. The Working Together Task & Finish group leads on Workforce Development. Initial Response (additional progress update response to be provided in April 2024): There are clear governance and reporting structures, as outlined above. We can provide updates as required.
23 November 2023 Meeting			
Children's Emotional Wellbeing & Mental Health Strategy	Recommendation: To work on developing explicit and comprehensive navigation tools for improving communication and referral for services at the neighbourhood level and within communities. It is		Recommendation Partially Accepted: Initial Response (additional progress update response to be provided in June 2024):

ltem	Action/Recommendation	Lead	Progress update
	recommended that piloting such navigation tools in specific communities may be a point of consideration.		We work closely with partners across Oxfordshire who offer advice, support and interventions for children, young people and their families and are currently tendering for a peer support app for CYP to support their mental health and well- being with a directory of local services to meet their needs. We recognise the importance of ensuring that local communities and neighbourhoods are connected to service provision in their areas. This is also important to the workforce so that they know who their local link is for support and services. This recommendation applies to all system partners to ensure that information is made available. HOSC can also support this approach with members of the scrutiny
			committee sharing information through their networks. The new SEND Local offer also provides details how to apply for help and includes a directory of local provision that both CYP and their families as well as professionals can access. This has been co-produced with Oxfordshire Parent Carer Forum and is key action in the priority action plan the link for the new website: Oxfordshire SEND local offer   Oxfordshire County Council As part of the early help strategy refresh this year OCC Children's Services will be ensuring the offer of early help is

ltem	Action/Recommendation	Lead	Progress update
			accessible to all families to find information to support them along with resources available within the local offer and linked with FIS.
			Co-production is a critical part of the strategy development and the commissioning cycle. This approach was adopted for the development of the emotional health and wellbeing strategy and in the commissioning of the digital offer. The Council recognises that improvements can be made and in future tenders we would like CYP to be able to be part of the evaluation process. We are working with procurement and legal colleagues to enable this to happen without being at risk of breaching contract procurement regulations and legal challenge. We have built reviews and service improvement into the digital offer and will be able to provide updates in due course.
Children's Emotional Wellbeing & Mental Health Strategy	Recommendation: To ensure adequate co-production with children and their families as part of continuing efforts to deliver the strategy, including considerations of how children and families can be placed at the heart of commissioning. It is also recommended for an early review with the users of the digital offer once this becomes available; to include		Recommendation Accepted:Initial Response (additional progress update response to be provided in June 2024):Co-production is a critical part of the strategy development and the commissioning cycle. This approach was

Item	Action/Recommendation	Lead	Progress update
	testing with neurodivergent children and other children known to be at higher risk of mental ill health.		<ul> <li>adopted for the development of the emotional health and wellbeing strategy and in the commissioning of the digital offer. The Council recognises that improvements can be made and in future tenders we would like CYP to be able to be part of the evaluation process. We are working with procurement and legal colleagues to enable this to happen without being at risk of breaching contract procurement regulations and legal challenge.</li> <li>We have built reviews and service improvement into the digital offer and will be able to provide updates in due course.</li> </ul>
Children's Emotional Wellbeing & Mental Health Strategy	Recommendation: To continue to explore and secure specific and sustainable sources of funding for the Strategy to be effectively delivered in the long-run.		Recommendation Accepted: Initial Response (additional progress update response to be provided in June 2024): Funding for supporting emotional health and wellbeing comes from a number of government departments and organisations. This includes Department for Education and NHS England as well as funding provided to the voluntary and community sector and for research and evaluation to grow the evidence base on what works. As a system we will strive to identify sustainable sources of funding for Oxfordshire. Local funding streams will be

ltem	Action/Recommendation	Lead	Progress update
			determined by the financial envelope provided to us nationally for this work.
			Any proposals to increase resources to better meet the needs of CYP in Oxfordshire are being managed by the SEND Priority Action Plan to address priorities identified during the Local Area SEND inspection by OFSTED and CQC.
Children's Emotional Wellbeing & Mental Health Strategy	Recommendation: To ensure that children and young people and their families continue to receive support that is specifically tailored toward their needs. It is recommended that a Needs-Based Approach is explicitly adopted, as opposed to a purely Diagnosis-Based Approach. This could allow for early intervention to be initiated as soon as possible.		Recommendation Accepted:Recommendation Accepted:Initial Response (additional progress update response to be provided in June 2024):System partners recognise the recommendation to be needs led and provide support to children, young people and families at the earliest opportunity utilising the Think Family Approach and as endorsed within the Early Help Strategy to offer the right support at the right time.Oxford Health are already taking this needs-led approach through Universal Public Health Services for CYP. Oxford Health CAMHS service also commission Autism Oxfordshire to give CYP and their families pre-diagnoses support for those waiting for a Neuro- development Conditions assessment. We are exploring different ways of commissioning and delivering Neuro- development Conditions assessment services across the BOB ICB as long waits are a national issue. Addressing waits for

ltem	Action/Recommendation	Lead	Progress update
			Neuro-development Conditions assessments is also an action in the SEND Priority Action Plan.
Children's Emotional Wellbeing & Mental Health Strategy	Recommendation: That consideration is given to the use of a simple and evidence-based standardised evaluation measure, that is suitable across all services that are working on Children's mental health in community settings.		<ul> <li>Recommendation Partially Accepted:</li> <li>Initial Response (additional progress update response to be provided in June 2024):</li> <li>Evaluations tell us what works and what does not. An evaluation should be a rigorous and structured assessment of a completed or ongoing activity, intervention, programme or policy that will determine the extent to which it is achieving its objectives and contributing to decisionmaking.</li> <li>Collecting feedback, data and local intelligence from children and young people, communities and services is essential to inform a needs-led approach. We will explore what guidance and evidence-based practice is available to address this recommendation.</li> <li>We would also like to recommend that this is broader than 'children's mental health in community settings' to recognise the impact of wider determinants on emotional health and wellbeing for children, young people and their families.</li> </ul>

ltem	Action/Recommendation	Lead	Progress update
			Children's Services already utilise SDQ's to measure and evaluate children's Mental Health for Children We Care For and we could look to expand this practice to a wider cohort of children to further explore their needs.
8 February 2024			
Director of Public Health Annual Report	For the fully published DPH Annual report to come to a future HOSC meeting, with a view to further scrutinise the report and the deliverability of the commitments around climate action and health.	Ansaf Azhar	Recommendation Accepted: We have agreed to bring the 2023/24 DPH Annual Report to a future HOSC meeting to enable members to consider the deliverability of its recommendations.
Director of Public Health Annual Report	For the full DPH report to incorporate a section with insights into Population Health, and to include an update on progress on recommendations from the previous DPH Annual report.	Ansaf Azhar	Recommendation Accepted: The DPH report now includes a summary profile of Oxfordshire's Health and Wellbeing with signposting to the Joint Strategic Needs Assessment which provides more detailed and live data.
Director of Public Health Annual Report	For there to be clear and thorough engagement and co-production with key stakeholders around the commitments to climate action and health after the publication of the report. It is recommended that the local contexts and sensitivities are taken into account, with a view to balance these with national directives around climate action and health.	Ansaf Azhar	Recommendation Accepted: This recommendation is reflected in the engagement plan for the report.
Director of Public Health Annual Report	For there to be clear transparency and indications as to the barriers and enablers surrounding commitments to climate action and health. It is recommended that sufficient avenues of funding and resources are secured	Ansaf Azhar	Recommendation Accepted: All relevant avenues of funding and resources will be pursued to support delivery of the Report's recommendations.

Item	Action/Recommendation	Lead	Progress update
	for the purposes of delivering these ambitions, and for collaboration with key system partners for the purposes of this.		
Director of Public Health Annual Report	For there to be clarity around any governance structures or processes around climate action and health. It is recommended that there is transparency around any key leads responsible for relevant policy areas around climate and health to understand individual/organisational commitments, as well as to understand any associated regulatory or legislative barriers to these commitments.	Ansaf Azhar	Recommendation Accepted: The report has already been submitted to the Future Oxfordshire Partnership Environment Advisory Group, which provides governance of system wide action to address climate change; it was welcomed and endorsed by this group. Within OCC the Climate Action Programme Board provides internal governance mechanisms for monitoring progress.
Director of Public Health Annual Report	To ensure that clear processes are in place for monitoring and evaluating the measures taken as part of climate action, with specific attention to the implications that such measures may have on residents' health and wellbeing.	Ansaf Azhar	Recommendation Accepted: The report's recommendations are aligned with metrics that are reported against as part of OCC's Unity performance monitoring system. In addition, impact on health outcomes will be reported through the Joint Strategic Needs Assessment.
Director of Public Health Annual Report	To raise educational awareness and understanding of the importance of climate action and its implications on health.	Ansaf Azhar	Recommendation Accepted: As part of the engagement plan, schools will be engaged as part of a coordinated approach to secure the support of schools' strategic leadership teams for action on climate and health.
Director of Public Health Annual Report	For next year's DPH Annual report to be brought as a full draft to the Committee's spring meeting, with a view to scrutinise the	Ansaf Azhar	Recommendation Accepted: Next year's DPH Annual report will be brought to the Committee's spring meeting

	draft and provide feedback in a public meeting ahead of its official publication.		with a view to scrutinise the deliverability of its recommendations.
SCAS CQC Improvement Journey	To ensure that the Service takes all possible timely measures to improve the effectiveness of its governance structures, particularly the flow of information to the board and consideration of the inclusion of independent members and the patient experience in the improvement journey. It is recommended that there are clear monitoring, assessment and audit processes in place to improve both the quality and safety of all services. Internal audit should be adequately resourced, and consideration might be given to bringing it into the organisation.	Daryl Lutchmaya, Kirsten Willis- Drewett, Dai Tamplin	Recommendation Accepted: Board forward planner with associated feeder board committees forward planners to be in place by the end of Q1 2024/25 Published Governance Assurance Framework (Q1 2024/25) Board Governance Structure Chart The Patient Council in SCAS is now established and involved in discussing issues SCAS is working on. The engagement officer in SCAS also works with governors and public on seeking opinions on key issues. Governors are invited to Quality and Safety Committee and Public Board meetings Patient and Staff stories of positive and negative experience shared with Board and are alternating standing agenda items at Public Board meeting Patient stories at Patient and Safety and Safety and
SCAS CQC Improvement Journey	For clear mechanisms to be established for the purposes of effectively monitoring adherence to health and safety policies.	Daryl Lutchmaya, Kirsten Willis- Drewett, Dai Tamplin	Recommendation Accepted: The Trust has clear mechanisms for monitoring the adherence to health and safety policies and also other Trust policies that might have a health and safety dimension to them such as Human

Item	Action/Recommendation	Lead	Progress update
			Resource policies, Estates policies, Infection Control policies, Education policies and policies to do with the management and maintenance of equipment.
			The Trust also has arrangements in place for the reporting of adherence to all of these policies via the annual reports produced by the Head of Risk and Security and the reports from the aforementioned Service Areas to the Health, Safety and Risk Group (HSRG). Indeed, all of these reports are to give assurance to the HSRG that health and safety is being managed effectively and that there is adherence not just to Trust health and safety policies but also the statutory legislative requirements.
SCAS CQC Improvement Journey	To ensure that demand and staffing requirements are frequently reviewed so as to secure adequate levels of workforce, and for there to be further resourcing of employees to support staff wellbeing.	Daryl Lutchmaya, Kirsten Willis- Drewett, Dai Tamplin	Recommendation Accepted: The Trust launched is People Strategy in 2023, based on the NHS People Plan. The strategy lays out our actions across four pillars, that give a clear direction for our cultural and staff wellbeing improvements over the next three years. Our ambition is to create a work environment where people feel happy, safe and have a sense of belonging and welcomes new people into SCAS.
			The Trust carries out annual planning process and uses modelling to predict required establishment based on the anticipated demand profile and also our

Item	Action/Recommendation	Lead	Progress update
			agreed commitments to standards of patient care. Weekly performance reports are reviewed at Executive level along with monthly Workforce Planning meetings to ensure we remain well-sighted on the reality of staffing capacity to fluctuating demand as the year unfolds. In 2024/25 we will be looking to create a 5 year workforce plan in line with our vision to be fit for the future.
			We are recruiting internationally as well as in the UK to source clinicians to meet our vacancies. For international recruits we have a comprehensive relocation package and support of a Pastoral Care Lead who helps them before they arrive in the UK and through their transition into their new life. We also offer a relocation package to help clinicians who are moving within the UK and make SCAS a destination employer. They are offered thorough, in depth training on all aspects of the roles they are entering including classroom teaching and on the job learning. Early indicators suggest they are settling and performing well. The Trust has a retention plan in place, with comprehensive retention action plans and programmes in place for each directorate, which are driven by our data and therefore updated regularly. We have seen improved in our retention over the last 6 months and are expecting this to continue in 2024/25

SCAS CQC Improvement Journey	To ensure that all ambulance staff are trained in and aware of how to promptly and appropriately provide patients with pain-relieving medication.	Daryl Lutchmaya, Kirsten Willis- Drewett, Dai Tamplin	The Health and Wellbeing team, focus on 6 pillars of wellbeing with a raft of support mechanisms for staff and volunteers, such as financial, emotional, physical and mental health aspects. We have a broad offer of mental health support for all staff include access to national ambulance charities and support networks. All of the aspects above are reported and monitored through our Workforce Development Committee and/or the People and Culture Committee, in addition to Board oversight. Recommendation Accepted: Staff are trained in medicines administration and pain assessment and work has been undertaken to ensure that staff fill in the electronic patient record (EPR) when they have administered any analgesia and monitor its effectiveness. Improvements have been made in the EPR to make it easier and essential to record pain scores to measure effectiveness of analgesia. Staff have access to an appropriate range of analgesic drugs to relieve symptoms. They also have access to JRCALC Clinical Practice Guidelines that includes information on medication dosing for both
SCAS CQC Improvement Journey	To ensure that all call handling as well as ambulance staff are sufficiently trained and equipped with the necessary skills on how to deal with mentally ill patients.	Daryl Lutchmaya, Kirsten	adults and children. Recommendation Accepted: Mental health awareness training has continued in SCAS and we have

Item	Action/Recommendation	Lead	Progress update
		Willis- Drewett, Dai Tamplin	introduced new training and improved the existing training on Mental Capacity Act which staff had highlighted was an area of concern for them. We are auditing the effectiveness of this. Mental Health nurses are embedded in our 999 and 111 call centres to support staff and patients with Mental Health calls Specifically commissioned Mental Health response team and vehicle is working in HIOW ICB footprint and the same approach would be beneficial in the BoB ICB footprint but is hampered by commissioning barriers. From a Clinical Coordination Centre perspective: In core module one (all new starters): NHS Pathways Sensitive Management of Calls with a Mental Health Element Occasionally comes up in the Pathways practice sessions, for example postpartum psychosis is included in one. Mental Health resilience delivered by SCAS mental health team. This is focused on the ECTs mental health and building their resilience. Dementia awareness eLearning - ESR Ongoing training for: CM2 (circa 12 weeks post sign off) - Challenging calls covering stigma surrounding mental health, handling ill mental health callers. Last year's F2F had learning disabilities and mental health resilience focused on staffs' mental health,

SCAS CQC Improvement Journey	That the Service continues to address the challenges around the IT outage with urgency.	Daryl Lutchmaya, Kirsten Willis- Drewett, Dai Tamplin	Recommendation Accepted: The safeguarding referral application and process is now fully hosted. This has resulted in better stability and effectiveness of the referral process. We are currently process mapping all ways of making electronic safeguarding referrals and paper based referrals from all of our services (999/111/PTS) to ensure we have assessed any unseen risks or points of weakness in the processes. We have also completed a clinical safety review of the referral process as part of the end to end mapping
John Radcliffe Hospital CQC Improvement Journey	For the Trust to continue to take improved measures to improve patient safety at the John Radcliffe. It is recommended that staff are sufficiently supported and trained in being able to maximise patient safety.	Eileen Walsh, Andrew Brent, Lisa Glynn	Recommendation Accepted: As a Trust, we take patient safety and quality improvement very seriously and so this work has been at both strategic and operational levels. As noted in our report to HOSC in February 2024, numerous developments across the Trust have taken place since the last inspections at the JR; all of which support and deliver improvements across each of the key questions: Safe, Responsive and Well Led. We continue to review all patient safety incidents with moderate or above impact at our daily Patient Safety Response (PSR) meeting which is chaired by senior clinical leaders with medical, nursing and governance representation from across the Divisions. In line with national requirements, we introduced Patient Safety Incident

Response Framework (PSIRF) in 2023. This is an approach to developing and maintaining effective systems and processes for responding to patient safety incidents focussed on learning and improving patient safety. We have a new policy with associated training, and it is supported by a detailed incident reporting and learning procedure. This has included the appointment of patient safety patients We continue to monitor key patient safety metrics both internally and against national benchmarks. The latest Summary Hospital-level Mortality Indicator (SHMI) for October 2022 to September 2023 is 0.92 (0.89-1.12). This is banded 'as expected'. From May 2024, the Trust level SHMI will exclude deaths that occur in the two Trust hospices (Katherine House Hospica and Sobell House Hospice) in line with benchmarked Trusts. Provisional NHSE data shared with the Trust shows a SHMI excluding the hospices of 0.86 for January to December 2023, which is banded as 'lower than expected'. The Trust's Hospital Standardised Mortality Ratic (HSMR) is 88.8 (95% CL 85.1 – 92.6) for September 2022 to August 2023. The HSMR remains broaded are lower than expected'. The September
banded as 'lower than expected'. The HSMR excluding both Hospices is 80 (71.5 -97.6). All deaths undergo a mortality review to identify and implement any potential learning.

and mandatory training across a range of clinical and non-clinical domains; patient safety training; and role specific training. Compliance is monitored via our MyLearning Hub electronic learning platform and through appraisal. Similar emphasis is placed on appraisal completion and monitoring to support staff in their personal development and delivery of the Trust objectives. Compliance is now recorded on a central system, with rates published in the monthy 'Integrated Performance Report' monitored by our Trust Board (papers are published on our website). We introduced a values-based appraisal (VBA) window for the first time in 2022 which has had a positive impact. 94.2% of Trust wide staff completed an appraisal in the last financial year compared to 65% in 2021-22. The OUH CEO launched our new 'Kindness into Action' programme in October 2022 with Kindness raining programme for our leaders and managers, something that has been integral to the improvement and development of core services across all sites. By the end of March 2024, 519 leaders in the organisation had completed this comprehensive training process of
completing the training. In addition, 1060 other members of staff had completed the

John Radcliffe Hospital CQC Improvement Journey	For ongoing stakeholder engagement and coproduction to be at the heart of the John Radcliffe Hospital's efforts to address the concerns identified by the CQC, and for there to be clear transparency and further evidence of this to be provided.	Eileen Walsh, Andrew Brent, Lisa Glynn	Underpinning all that we do is a strong focus on Quality Improvement (QI), with ~1,500 staff now trained in Quality Improvement. Reflecting this is our positive feedback from the NHS Staff Survey, which highlights a significant cultural shift within ourorganisation towards greater staff autonomy and involvement in decision- making processes related to their work areas. These survey results reflect our staff's increasing ability to contribute to improvements and compare favourably with many other NHS Trusts. The staff survey includes 3 questions on quality improvement. In all three questions OUH has seen improvement over the last few years and the scores remain above the average for staff survey results in England. Recommendation Accepted: HOSC are thanked for their recognition of the importance of stakeholder engagement and co-production in NHS services. Stakeholder engagement is a vital part of both our strategic and operational efforts. The views of patients, families, carers, staff and partners help shape our services across the JR and the wider trust. By way of an example of our commitment to this, since the last CQC inspections we have published "Your Voice: Patient Experience and Engagement Plan 2023 – 26" which sets the vision and direction for improving how the Trust learns from lived experience and then puts this into practice with

experts by experience working alongside us to implement change. We hold an annual patient safety engagement event which is geared to engage patients the public and our governors in helping set our annual quality profites. In addition, as flagged in our report to HOSC, patient experience stories are presented to the Trust Board and our integrated Assurance Committee, providing an insight into an individual's experience of our services. They often provide opportunities for learning, Supporting and involving staff and patients after a patient safety event is one of the four key elements of the Patient Safety incident Response Framework and the integrated work of our Patient Safety Pathers. For our staff, we have worked to ensure everyone in the organisation feels they can nave a say and that their voice is heard and listened to. Their views are taken into account when decisions are being discussed that affect them. Where we have improvement programmes across the Trust, we ensure there is a Development Programme' structure where staff can input, shape and influence those improvement programmes. We have also nut mechanisms in place to enable an ongoing conversation with our staff, in different ways, to ensure every voice is heard and actively listened to and the feedback used to quide action plans to address issues 5	Item	ı	Action/Recommendation	Lead	Progress update

			raised and celebrate when things are going well.
John Radcliffe Hospital CQC Improvement Journey	For clear transparency around the Trust's efforts to address the CQCs concerns around the John Radcliffe. It is recommended that there are clear indicators that could help determine how improvements in the John Radcliffe are being driven overall as well as in the specific service areas of Gynaecology, Maternity, Surgery, and Urgent & Emergency Care.	Eileen Walsh, Andrew Brent, Lisa Glynn	Recommendation Accepted: We acknowledge the importance of transparency around the quality and improvement in our services. We have therefore ensured that the key reports for us, that play a central a role in monitoring, compliance and improvements, are routinely taken through the Trust's governance structures up to the Trust Board. This includes the publication of associated papers on our website. For example, our Integrated Performance Report (IPR) is reported to the Board and it contains performance indicators, assurance reports and development indicators. The IPR identifies actions to address risks, issues and emerging concerns. This help assist us understand the progress and impact of improvements. The outcomes and overview of our progress in response to CQC Inspections have been reported in the Trust's Annual Reports and Quality Accounts. These are also published on the Trust's website.
John Radcliffe Hospital CQC Improvement Journey	For sufficient resources to be secured for the purposes of delivering and potentially expanding the Hospital at Home Service.	Eileen Walsh, Andrew Brent, Lisa Glynn	Recommendation Partially Accepted: The Hospital at Home service (H@H) is a successful initiative that has been introduced, providing an alternative to acute hospital admission, for the treatment and monitoring of patients, enabling them to stay at home during an acute illness. We are committed to having a continuous

Item	Action/Recommendation	Lead	Progress update
			focus on improving our urgent and emergency services; of which the H@H initiative is an important part. We look to deploy our limited NHS financial resources and workforce according to the needs of patients. As models of care evolve, the range of healthcare roles develop and technology advances evolve, we will continually innovate to ensure the care we provide meets the needs of patients within the financial envelope we have available.
John Radcliffe Hospital CQC Improvement Journey	For a site visit to be orchestrated for the purposes of providing the Committee with insights into the measures taken by the Trust to improve patient safety at the John Radcliffe.	Eileen Walsh, Andrew Brent, Lisa Glynn	Recommendation Accepted: OUH would be happy to host a delegation from HOSC to visit the JR to provide first hand illustration of some of the measures taken to improve patient safety.
