

## Report to the Health and Wellbeing Board 14 March 2019

<b>Report from</b>	Integrated System Delivery Board
<b>Report Date</b>	25 February 2019
<b>Dates of meetings held since the last report:</b> 18 December 2018 15 January 2019	
<b>HWB Priorities addressed in this report</b> <ul style="list-style-type: none"> <li>✓ A coordinated approach to prevention and healthy place-shaping.</li> <li>✓ Improving the resident's journey through the health and social care system (as set out in the Care Quality Commission action plan).</li> <li>✓ An approach to working with the public so as to re-shape and transform services locality by locality</li> <li>✓ Plans to tackle critical workforce shortages.</li> <li>✓ A Healthy Start in Life</li> <li>✓ Living Well</li> <li>✓ Ageing Well</li> <li>✓ Tackling Wider Issues that determine health</li> </ul>	
<b>Link to any published notes or reports:</b> Update to the 7 February 2019 meeting of Oxfordshire Joint Health Overview and Scrutiny Committee can be accessed <a href="#">here</a> Approved ISDB notes and actions will be made public starting with the 15 January 2019 meeting	
<b>Priorities for 2019-20</b>	<ul style="list-style-type: none"> <li>• Deliver the Health and Wellbeing Board's vision for integrated health and social care in Oxfordshire</li> <li>• Keep up to date with contemporary thinking from health and care systems elsewhere including new commissioning and delivery systems to incentivise change and fresh thinking to tackle system challenges</li> <li>• Ensure the Oxfordshire health and social care system maintains a consistent approach that remains aligned with wider and at-scale system working such as the BOB STP and other footprints (Ca Alliance, specialist commissioning)</li> <li>• Work with the other Health and Wellbeing Board Sub-Groups and Sub-Committees to ensure that its vision is fully delivered</li> </ul>

**1. Progress reports on priority work to deliver the Joint HWB Strategy  
(priority, aim, deliverable, progress report)**

The members of the Integrated System Delivery Board (ISDB) are working together to advance the integration of health and social care as set out in the health and Wellbeing Strategy.

Publication of the NHS Long Term Plan reinforces many of the local ambitions that Oxfordshire has in relation to integrated care. Announcement of specific funding support to drive forward the delivery of these ambitions is welcomed, however the detail in relation to what support will be provided and when is still emerging.

The ISDB is working to understand the full implications of the Long Term Plan and this work will influence the final set of deliverables and subsequent performance measures that ISDB and the delivery workstreams will adopt. These deliverables will form the basis of performance reporting to the Health and Wellbeing Board and be included in future iterations of the performance framework for the Health and Wellbeing Strategy.

<b>Priority</b>	<b>Deliver the Health and Wellbeing Board's vision for integrated health and social care in Oxfordshire</b>
<b>Aim or Focus</b>	Focus on collaborative approaches to maintaining a collective responsibility for our health and care system
<b>Deliverable</b>	<ul style="list-style-type: none"> <li>• Develop a single system plan and timescales for the programme to advance system working and integrated care</li> <li>• Maintain focus on implementing the plan, taking into account any factors that may impact its successful delivery</li> </ul>
<b>Progress report</b>	<p>The workstream delivery approach has been agreed and system leaders have been nominated to provide sponsorship to specific delivery workstreams.</p> <p>Senior operations managers have been nominated as SROs for each workstream and clinical leadership – across health and social care is being identified and organised.</p>

<b>Priority</b>	<b>Keep up to date with contemporary thinking from health and care systems elsewhere including new commissioning and delivery systems to incentivise change and fresh thinking to tackle system challenges</b>
<b>Aim or Focus</b>	Ensure that clinical leadership drives forward positive progress and change in the Oxfordshire health and care system
<b>Deliverable</b>	<ul style="list-style-type: none"> <li>• Establishment of a clinical leadership group to support the work of ISDB and the delivery workstreams</li> </ul>

<b>Progress report</b>	Commissioning and provider organisations are working together to identify and draw out good practice and innovation, locally, nationally and globally so that our work in Oxfordshire can benefit from insights and learning. This information will be made available to the clinical reference group as an evidence base to inform discussion and work to consider how innovation and good practice can inform future models of care, delivery and ways of working in Oxfordshire. This approach fits directly with the Health and Wellbeing Board adopted approach to identifying and managing population health and care needs.
------------------------	--

## 2. Summary of other items discussed by the group

The Oxfordshire Joint Overview and Health Committee raised questions at the levels of transparency in relation to the work of the Integrated System Delivery Board. The points and questions raised were considered and reported back the Joint HOSC at the 7 February Meeting.

ISDB aims to ensure the Oxfordshire health and social care system maintains a consistent approach, aligned with wider and at-scale system working. ISDB will manage the programme of work to advance the integration of health and care in Oxfordshire. The meeting is an opportunity for system leaders to come together to discuss operational issues as well broader subjects such as Oxfordshire becoming an integrated care system.

It is important to note that any changes would be discussed in numerous public meetings such as Oxfordshire County Council's cabinet and full council, the CCG board and hospital trust boards; and would ultimately be discussed and signed off by the Health and Wellbeing Board - at a public meeting. This would provide the public with the opportunity to comment and in addition to this we would of course consider any other suitable opportunities for engagement with the public as we develop these plans.

Members of the ISDB understand that the integration of health and care is a subject that is of wider interest given the benefits to the people who use those services. Therefore, it was agreed that the approved actions and notes of the ISDB meetings will be made publicly available from the January 2019 meeting (these will be published after the next ISDB meeting that will be held in March).

The terms of reference for the ISDB have been revised accordingly.

## 3. Forward plan for next meetings

- Distributing the Oxfordshire pound – progress on the system approach to 2019/20 operational planning

- Development of a strategy for the Buckinghamshire, Oxfordshire, Berkshire West STP
- Further implications of the Long Term Plan – following publication of more detailed delivery aspects such as the reformed GP contract
- Delivering Integrated Care in Oxfordshire
- Further utilisation of the population health and care needs framework approach
