Dear Mr St Johns

A415 Newbridge River Thames Crossing — Survey Permission on land adjacent to River Windrush

Thank you for your letter and enclosed literature relating to Lot 6. I note that you have passed my request for survey permission to your clients and will await a reply. From your brochure, I see that Lot 4 and a small part of Lot 5 also fall within the study area. Am I right in assuming that all the lots are owned by the same person/s and therefore survey permission if given will apply to all these plots?

I will pass a copy of your letter to the County Council who may wish to write to you regarding the affect of the scheme on your clients land. Until the Council hold a public exhibition of their proposals, which is currently programmed for spring 2008, all I can advise is that Lot 6 does lie within a possible corridor for this scheme and would be affected if that corridor were taken forward as the preferred route.

Yours sincerely

Richard Allnutt
Project Engineer
