|----------------------------------|--|
| Decision maker: | Paul Fermer, Director of Environment and Highways |
| Decision title: | Traffic Signals Maintenance and Refurbishment |
| Decision date: | 22 January 2025 |
| Source of delegation: | Delegated under a decision by the Cabinet Member for Highways Management a Key Decision on 12 October 2023 (Reference: 2023/245) |
| What decision was made? | To award a new traffic signals and maintenance contract. |
| Purpose: | To allow the continued maintenance and refurbishment of the traffic signal asset base. |
| Reasons: | <p>To allow the continued maintenance and refurbishment of the traffic signal asset base.</p> <p>The funding for this work will come from relevant operational capital and revenue budgets and any associated grant funding.</p> |
| Other options considered: | Alternative would be to not award a new contract and utilise the existing Telent contract. Due to contract conditions and the value of the contract the service would not be able to deliver any capital upgrade work. |
