<p>David Munday, Deputy Director of Public Health, provided an update on the Marmot Place and raised the following points:</p> <ul style="list-style-type: none"> - Marmot Place County launch event took place at the end of November and there was good system-wide representation. - The plan for future programme-wide projects was shared with the Board. - The need to move towards tangible action in future work programmes following the launch event. <p>Dan Leveson, ICB Place Director for Oxfordshire, referenced the importance of this being a long-term project which requires commitment.</p>

Referring to paragraph 11, it was acknowledged that there were challenges across the County, and in Oxford City, but that additional resources had been put in place to deal with people at risk of</p>	

<p>homelessness.</p> <p>Dan Leveson noted the health impacts of homelessness, in terms of life expectancy and other conditions, such as addiction, and also raised that there was expected to be some increase in government funding.</p> <p>Caroline Green confirmed that there was an additional £233m nationally available for homelessness prevention, but made clear that it was not known how much each District or City Council would receive as part of that funding until the Local Government Finance Settlement.</p> <p>Cllr Chewe Munkonge, Oxford City Council, asked if there was data available around homeless people without recourse to public funds. Richard Smith confirmed the data was available and would liaise with colleagues at the City Council who could provide greater detail.</p> <p>Veronica Barry raised the issue of cooking facilities for families in temporary accommodation.</p> <p>RESOLVED:</p> <p>The Health and Wellbeing Board noted the report.</p>

It was noted that the closer this was to communities, the more sustainable and better it would be.</p>	

<p>Ansaf Ahzar noted the difficulties of measuring prevention but gave some examples of good measurements such as the physical activity programme.</p> <p>Professor Sir John Montgomery, Chair of Oxford University Hospitals NHS Foundation Trust, raised points about the governance of the strategy and the importance to avoid duplication of governance streams.</p> <p>Board Members raised the importance of a long-term approach to this area of work, noting that short-termism, despite financial contexts, is not beneficial.</p> <p>Michelle Brennan, GP representative, raised the issue of language and not working in silos, in order to ensure that work continued to progress in partnership.</p> <p>Karen Fuller noted that the use of language was important and what it means to other people. It was also reflected that the strategy was a partnership-wide strategy and governance links between adult social care and public health demonstrated good collaboration with different areas.</p> <p>The Board further discussed the prevention strategy and thanked officers for their report.</p> <p>RESOLVED to:</p> <p>(a) Note the progress on the delivery of priority 10: Thriving Communities within the Health and Wellbeing Strategy</p> <p>(b) Comment on the draft Oxfordshire Way Prevention Strategy and endorse the plan to progress to wider consultation.</p>
