HOSC Forward Plan – September 2019

The scrutiny work programming guide was shared in July 2017 and is designed to help assess the relative merits of topics brought forward in order to prioritise areas of focus for scrutiny through a transparent and objective process. The "PICK" methodology can help scrutiny committees consider which topics to select or reject. This is:

Public interest	➢ Is the topic of concern to the public? ➢ Is this a "high profile" topic for specific local communities? ➢ Is there or has there been a high level of user dissatisfaction with the service or bad press? ➢ Has the topic has been identified by members/officers as a key issue?
Impact	➢ Will scrutiny lead to improvements for the people of Oxfordshire? ➢ Will scrutiny lead to increased value for money? ➢ Could this make a big difference to the way services are delivered or resource used?
Council performance	➢ Does the topic support the achievement of corporate priorities? ➢ Are the Council and/or other organisations not performing well in this area? ➢ Do we understand why our performance is poor compared to others? ➢ Are we performing well, but spending too much resource on this?
Keep in context	➢ Has new government guidance or legislation been released that will require a significant change to services? ➢ Has the issue been raised by the external auditor/ regulator? ➢ Are any inspections planned in the near future?
