### **Health Improvement Partnership Board**

7th November 2024

### Performance Report

### **Background**

- The Health Improvement Partnership Board has agreed to have oversight of delivery of two priorities (priorities 3 and 4) within Oxfordshire's Joint Health and Wellbeing Strategy 2024-2030, and ensure appropriate action is taken by partner organisations to deliver the priorities and shared outcomes. An important part of this function is to monitor the relevant key outcomes and supporting indicators within the strategy's outcomes framework. This HIB performance report has therefore been edited to reflect the relevant measures and metrics from the outcomes framework.
- 2 The indicators are grouped into the overarching priorities of:
  - 3 Healthy People, Healthy places
    - 3.1 Healthy Weight
    - 3.2 Smoke Free
    - 3.3 Alcohol related harm
  - 4 Physical activity and Active Travel
    - 4.1 Physical Activity
    - 4.2 Active Travel
    - 4.3 Mental Wellbeing

### **Current Performance**

- 3 The table report below show the agreed measures under each priority, the latest performance available and trend in performance over time. A short commentary is included to give insight into what is influencing the performance reported for each indicator.
  - Where data is available at sub-Oxfordshire level, this is indicated with \* for District and ‡ for MSOA level.
- In the current reporting period, a number of the smoking prevalence indicators have been updated. Targets have been set according to the trajectory needed to achieve the national smoke free by 2030 ambition (where prevalence falls to 5% or less by 2030). Each year the target for smoking prevalence indicators will be revised downwards to support the trajectory towards this ambition.
- All indicators show which period the data is being reported on and whether it is new data (refs numbers are highlighted), or the same as that presented to the last meeting.

Of the 25 indicators reported in this paper:

7 indicators have NEW DATA Refs Numbers highlighted in report are 3.21, 3.22, 3.24, , 3.31, 3.32, 4.13, 4.14 21 green indicator(s).

4 amber indicator(s).

0 red indicator(s).

| 3.21 | Smoking Prevalence in adults (18+) - current smokers *   | Annual    | 10.8%  | 2023                | 10.3% | G   | The local stop smoking service (LSSS) continues to support smokers to quit, with specific focus on priority groups. Additional programmes across the system to further support quits include:  The NHSE funded tobacco dependency services within acute, mental health and maternity settings.  Tobacco Dependency Advisors within the Targeted Lung Health Check Programme Additional vapes from DHSC to implement the 'Swap to Stop' scheme with specific populations as well as mental health and social housing providers to support tenants to quit.  Additional grant funding to boost smoking cessation efforts across England was received in April 2024 is further supporting these programmes and expansion of the LSSS through a recommission ready for summer 2025. The new stop smoking campaign, 'It's Well Worth It' was launched on 30th September and is planned to direct residents to local stop smoking provision. | 30%<br>25%<br>20%<br>15%<br>10%<br>5%<br>0%<br>2019 2020 2021 2022 2023       |
| 3.22 | Smoking prevalence in adults in routine and manual occupations (18-64) - current smokers *             | Annual    | 24.5%  | 2023                | 15.3% | G   | The local stop smoking service targets work with routine manual occupations through engagement in specific workplaces. Additional initiatives include the national Swap to Stop initiative for provision of free vapes and work with housing associations to support residents to quit. The new stop smoking campaign, 'It's Well Worth It' was launched on 30th September and plans to appeal to a range of residents including this priority group. A local insights project will also conclude in Autumn and inform how best to support this population in the recommission of the service.   | 40%<br>30%<br>20%<br>10%<br>0%<br>2019 2020 2021 2022 2023                    |
| 3.23 | Smoking prevalence in adults with a long term mental health condition (18+) - current smokers (GPPS) * | Annual    | 20.2%  | 22/23               | 21.1% | G   | The Tobacco Dependency Service (TDS) funded by NHSE/ICB specifically supports adult inpatients with mental health conditions to quit smoking. In addition the local stop smoking service supports individuals with low level mental health challenges. Further work is planned to explore opportunities to engage community mental health patients to quit.  | 60%<br>50%<br>40%<br>30%<br>20%<br>10%<br>0%<br>18/19 19/20 20/21 21/22 22/23 |
| 3.24 | Smoking prevalence in pregnancy  | Quarterly | 6.0%   | Q1-24               | 5.3%  | G   | Most pregnant women who smoke are now being supported via the new maternity inhouse tobacco dependency advisor service (via NHS Long Term Plan funding). The local stop smoking service continues to support pregnant women to quit smoking, but numbers are fewer. Younger pregnant women who smoke are offered an incentive to quit via our local Family Nurse Partnership. A national incentive quit scheme for pregnant women is due to be rolled out across the Country during 2024. BOB ICB have submitted a joint expression of interest on behalf of BOB ICB – inclusive our OUH Maternity.  | 6%  |
