

Better Care Fund (BCF) 2026-27 Numerical Template

1. Guidance

Overview

The numerical return is designed to capture planned BCF spend, goals and assurance statements. Together with the narrative return these will enable local areas to demonstrate how they meet the national funding conditions, in line with the published BCF 2026-27: <https://www.gov.uk/government/publications/better-care-fund-framework-2026-to-2027/better-care-fund-framework-2026-to-2027>.

Completed numerical returns are due by Tuesday 19 May 2026 (noon)

Submissions should be sent to the national BCF team at england.bettercarefundteam@nhs.net, as well as to regional Better Care Managers.

This guidance provides an overview of how to complete this numerical return. Further guidance is provided in the BCF Planning Principles guidance and and supporting documents which can be found on the Better Care Exchange - <https://future.nhs.uk/bettercareexchange/view?objectID=70716560>

Functional use of the template

We are using the latest version of Excel in Office 365, an older version may cause an issue.

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a blue background, as below:

Data needs inputting in the cell
Pre-populated cells

This template is password protected to ensure data integrity and accurate aggregation of collected information. A resubmission may be required if this is breached.

2. Cover

The cover sheet provides essential information on the area for which the template is being completed, contacts and sign off. To view pre-populated data for your area and begin completing your template, you should select your HWB from the top of the sheet.

Governance and sign-off

National condition one (refer to tab 6) outlines the expectation for the local sign off of plans. Plans must be jointly agreed and be signed off in accordance with organisational governance processes across the relevant ICB and local authorities. Plans must be accompanied by signed confirmation from local authority and ICB chief executives that they have agreed to their BCF plans, including the goals for performance against headline metrics. Please enter date of expected sign off if not yet signed off. **This accountability must not be delegated.**

Data completeness and data quality:

- Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells in this table are green should the template be sent to the BCF team: england.bettercarefundteam@nhs.net (please also copy in your better care manager).
- The checker column, which can be found on each individual sheet, updates automatically as questions are completed. It will appear red and contain the word 'No' if the information has not been completed. Once completed the checker column will change to green and contain the word 'Yes'.
- The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'.
- Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to 'Template Complete'. Please ensure that all boxes on the checklist are green before submission. Please contact your regional BCF team if you have any issues.

3. Income

This sheet should be used to specify all funding contributions to the HWBs BCF plan and pooled budget for 2026-27. This section will be pre-populated with the NHS minimum contributions, Disabled Facilities Grant (DFG) and Local Authority Better Care Grant (LABCG). For any questions regarding the BCF funding allocations, please contact england.bettercarefundteam@nhs.net (please also copy in your better care manager).

Additional Contributions

This sheet also allows local areas to add in additional contributions from both the NHS and local authority. You will be able to update the value of any additional contributions (local authority and NHS) income types locally. If you need to make an update to any of the funding streams, select 'Yes' in the boxes where this is asked and cells for the income stream below will turn yellow and become editable. Please use the comments boxes to outline reasons for any changes and any other relevant information as this will ensure section is marked as complete.

Unallocated funds

Plans should account for full allocations meaning no unallocated funds should remain once the template is complete.

4. Expenditure

Please see tab '4a. Expenditure guidance' for further information.

5. Metrics

For 2026-27, local authorities, integrated care boards (ICBs) and HWBs will be expected to monitor performance and improvement for the four metrics listed in the Metrics Handbook <https://future.nhs.uk/bettercareexchange/view?objectID=277641413>, available on the Better Care Exchange:

It is a national requirement for partners to set local goals in relation to the following two metrics:

- Non elective admissions to hospital for people aged 65 and over per 100,000 population
- Average length of discharge delay for all acute adult patients

HWBs are also encouraged to set goals for the metric on long-term admissions to residential and nursing homes for people aged 65 and over per 100, 000 population.

We also expect HWBs to monitor and drive improvements for the metric on the proportion of people aged 65 and over discharged from hospital with reablement provided partly or solely by local authorities who remained in the community within 12 weeks of discharge.

Further details on the metrics, can be found below:

1. Non-elective admissions to hospital for people aged 65 and over per 100,000 population. (monthly)

- This is a count of non-elective inpatient spells at English hospitals with a length of stay of at least 1 day, for specific acute treatment functions and patients aged 65+
- This requires inputting of both the planned count of emergency admissions. The population figure is pre-populated using the latest available mid-year estimates.
- This will then auto populate the rate per 100,000 population for each month

Source statistics: <https://digital.nhs.uk/supplementary-information/2026/non-elective-inpatient-spells-at-english-hospitals-occurring-between-1-april-2020-and-30-november-2025-for-patients-aged-18-and-65>

2. Average number of days from Discharge Ready Date to discharge (all adult acute patients). (monthly)

- This is calculated as the sum of all bed days between the Discharge Ready Date and discharge (bed days lost) for patients discharged in a given month, divided by the total number of patients discharged in that month.

In completing the table for 2026-27 we ask areas to set out these two components and sheet automatically calculates the average figure:

- In a given month, the total number of patients discharged on the same day as their Discharge Ready Date, divided by the total number of patients discharged in that month.
- The sum of all bed days between the Discharge Ready Date and discharge (bed days lost) for patients discharged in a given month, divided by the total number of patients delayed by at least 1 day and discharged in that month.

Source statistics: <https://www.england.nhs.uk/statistics/statistical-work-areas/discharge-delays/discharge-ready-date/>

3. Long-term admissions to residential and nursing care homes for people aged 65 and over per 100,000 population

- Admissions data is taken from the Client Level Data (CLD) source published on a quarterly basis and presents admissions as a rolling 12-month total, calculated to the end of each quarter and reported as a rate per 100,000 population.
- Population are based on a calendar year using the latest available mid-year estimates.

Any improvement planned in reablement can be noted in the narrative template but does not need to be included in this numerical template.

For missing pre-populated actuals data from November 2025 to date, please check the BCF dashboard on the DHeXchange which will have more recent data as it becomes available.

6. National conditions

This section requires local authorities, ICBs and HWBs to confirm whether the three BCF national conditions and planning requirements detailed in the published BCF 2026-27 guidance will be met. The assurance statements in this section refer to specific planning requirements, supplementing the information provided in the narrative template and this numerical template.

This sheet requires the local authorities, ICBs and HWBs to confirm 'Yes' or 'No' to the assurance statements. Should 'No' be selected, please note the actions in place towards meeting the requirement and outline the timeframe for resolution.

In summary, the national conditions are as below:

- **National condition 1:** ICBs and local authorities must develop joint plans, agreed by health and wellbeing boards, outlining how ICBs and local authorities intend to use BCF funding, to deliver more integrated and preventative care, linked to the wider development of neighbourhood health and social care services.
- **National condition 2:** ICBs and local authorities must comply with all national grant and funding conditions and deliver in accordance with their approved return. ICBs must maintain the NHS minimum contribution to adult social care and pool NHS BCF contributions into a section 75 (of the NHS Act 2006) pooled fund.
- **National condition 3:** ICBs and local authorities must comply and engage with BCF planning, governance and reporting requirements including adherence to any assurance and oversight processes.

Better Care Fund 2026-27 Numerical Template

2. Cover

Version 1.0

Please Note

- The BCF numerical template is categorised as 'Management Information' and data from them will be published in an aggregated form on the NHS England website and gov.uk. This will include any narrative section. Some data may also be published in non-aggregated form on gov.uk. Also a reminder that as is usually the case with public body information, all BCF information collected here is subject to Freedom of Information requests.
- At a local level it is for the HWB to decide what information it needs to publish as part of wider local government reporting and transparency requirements. Until BCF information is published, recipients of BCF reporting information (including recipients who access any information placed on the Better Care Exchange) are prohibited from making this information available on any public domain or providing this information for the purposes of journalism or research without prior consent from the HWB (where it concerns a single HWB) or the BCF national partners for the aggregated information.
- All information will be supplied to BCF partners (MHCLG, DHSC, NHS England) to inform policy development.
- This template is password protected to ensure data integrity and accurate aggregation of collected information. A resubmission may be required if this is breached.

Governance and Sign off

Health and Wellbeing Board:	Oxfordshire
Confirmation that the plan has been signed off by Health and Wellbeing Board ahead of submission - Plans should be signed off ahead of submission.	Yes
If no indicate the reasons for the delay.	
If no please indicate when the HWB is expected to sign off the plan:

27	Bed-based intermediate care (short-term bed-based	Short stay hub bed model-P2 reablement-ICB contribution	NHS Minimum Contribution	Yes	£2,621,697
28	Bed-based intermediate care (short-term bed-based	Short stay hub bed model-P2 reablement-OCC contribution	Local Authority Better Care Grant	Yes	£827,904
29	Discharge support and infrastructure	Complex dementia mental health support to care homes (CSS expansion)	Local Authority Better Care Grant	Yes	£272,000
30	Discharge support and	Trusted Assessor service	Local Authority Better	Yes	£125,000

31	Wider local support to promote prevention and independence	High Intensity User support	NHS Minimum Contribution	No	£179,000
32	Wider local support to promote prevention and independence	Alcohol complex care support	NHS Minimum Contribution	No	£83,430
34	Home-based intermediate care (short-term home-based)	CYP respiratory support to prevent admissions	NHS Minimum Contribution	No	£60,000
35	Wider local support to promote prevention and independence	Stay strong and steady falls prevention service	NHS Minimum Contribution	No	£201,236
36	Home-based intermediate care (short-term home-based)	Falls prevention service	NHS Minimum Contribution	No	£446,529
38	Bed-based intermediate care (short-term bed-based)	Contribution to P2 rehab bed pathway costs (CH beds (inc stroke)	NHS Minimum Contribution	No	£5,386,712
39	Urgent community response	Community resource to divert patients from 999/111 to UCR (SPA)	NHS Minimum Contribution	No	£720,429
40	Discharge support and infrastructure	Same day emergency discharge (MDT ORU)	NHS Minimum Contribution	No	£200,000
42	Support to carers, including unpaid carers	Community information, advice, care navigation and social prescribing - (Care Act)	NHS Minimum Contribution	Yes	£381,758
43	Short-term home-based social care (excluding rehabilitation,	Home First Discharge to Assess	Local Authority Better Care Grant	Yes	£304,525
45	Urgent community response	STACK EXPANSION 8-8	NHS Minimum Contribution	No	£815,000
46	Discharge support and infrastructure	OPTICA	NHS Minimum Contribution	No	£160,000
47	Wider local support to promote prevention and independence	NEIGHBOURHOOD DEVELOPMENT	NHS Minimum Contribution	No	£463,103
48	Home-based intermediate care	Home First community and discharge reablement	Local Authority Better	Yes	£417,233

Guidance for completing expenditure sheet

1. Please enter spend information in the bottom table starting cell B30 including the category of spend which is a dropdown containing the categories listed in the table below. You must also enter scheme-level detail for the line of spend in 'Description of Scheme' with the appropriate level of information keeping this relatively succinct, for example 'Community Health Rehabilitation' or 'MSK services' or 'Integrated Crisis and Rapid Response' would be sufficient. Please also enter source of funding which determines the total spend appearing in the source of funding table at the top. Ensure a 'Number' is entered in the 'Expenditure for 2026-27 (£)' so that the validation boxes can be marked as complete.

2. Please ensure 'Adult Social Care Spend' is marked 'Yes' when the money is spent on Adult Social Care across any funding source.

Scheme Types

Number	Category of scheme	Description
1	Assistive technologies and equipment	Using technology in care processes to support self-management, maintenance of independence and more efficient and effective delivery of care. (eg. Telecare, Wellness services, Community based equipment, Digital participation services).
2	Housing related schemes	This covers expenditure on housing and housing-related services other than adaptations; eg: supported housing units.
3	DFG related schemes	The DFG is a means-tested capital grant to help meet the costs of adapting a property; supporting people to stay independent in their own homes. The grant can also be used to fund discretionary, capital spend to support people to remain independent in their own homes under a Regulatory Reform Order, if a published policy on doing so is in place.
4	Wider support to promote prevention and independence	Services or schemes where the population or identified high-risk groups are empowered and activated to live well in the holistic sense thereby helping prevent people from entering the care system in the first place. These are essentially upstream prevention initiatives to promote independence and wellbeing.
5	Short-term home-based intermediate care (rehabilitation, reablement and recovery services)	Short-term (up to 6 weeks), therapy-led services in the person's usual residence (home or care home), following the 'Home First' principle. For adults 18+ to regain independence post-illness/injury/discharge (step-down) or prevent admissions/long-term care (step-up). Person-centred, with initial assessment and regular reviews; led by registered therapists (physiotherapists, occupational therapists, speech/language therapists) plus support from unregistered workers and other professionals (nurses, doctors, social workers). Outcomes: better function, confidence, wellbeing; less carer reliance and long-term care demand. Domiciliary social care (personal care, domestic help) included only within a rehab/reablement-focused package.
6	Short-term home-based social care (excluding rehabilitation, reablement and recovery services)	Short-term domiciliary social care (e.g. personal care, help with domestic tasks, voluntary sector support), except where it is provided as part of a package that also includes rehabilitation, reablement and/or recovery services.
7	Long-term home-based social care services	Ongoing social care services (e.g. personal care, help with domestic tasks), helping people continue to live at home and maintain independence.
8	Long-term home-based community health services	Ongoing health services provided in people's own homes or in other non-residential community-based settings.
9	Bed-based intermediate care (short-term bed-based rehabilitation, reablement or recovery)	Short-term (up to 6 weeks), therapy-led services in a community bed-based setting (e.g. community hospital, care home bed or designated facility). For adults 18+ to regain independence post-hospital stay (step-down) or prevent avoidable admission/long-term residential care (step-up from community). Person-centred, with initial assessment and regular reviews; led by registered therapists (physiotherapists, occupational therapists, speech/language therapists) plus multi-disciplinary support (unregistered workers, nurses, doctors, others as needed). Where safe and appropriate, transition to home-based intermediate care is required to continue recovery at usual residence. Outcomes: improved function, confidence, wellbeing; reduced acute admissions, readmissions and long-term social care demand. May include mixed health and social care interventions.
10	Long-term residential or nursing home care	Ongoing care provided in a residential care home or nursing home for people who need more intensive or specialised support than can be provided at home.
11	Discharge support and infrastructure	Services and activity to enable discharge. Examples include multi-disciplinary/multi-agency discharge functions or Home First/ Discharge to Assess process support/ core costs.
12	End of life care	Schemes specifically designed to provide care and support for people nearing the end of life.
13	Support to carers, including unpaid carers	Supporting people to sustain their role as carers and reduce the likelihood of crisis. This might include respite care/carers breaks, information, assessment, emotional and physical support, training, access to services to support wellbeing and improve independence.

14	Evaluation and enabling integration	Schemes that monitor or evaluate the impact of integrated care schemes. Schemes or services that enable integrated care, such as (but not necessarily limited to): - Joint commissioning arrangements - Integrated care planning - Helping people navigate services - Workforce development or recruitment and retention
15	Urgent Community Response	Urgent community response teams provide urgent care to people in their homes which helps to avoid hospital admissions and enable people to live independently for longer. Through these teams, older people and adults with complex health needs who urgently need care, can get fast access to a range of health and social care professionals within two hours.
16	Personalised budgeting and commissioning	Various person centred approaches to commissioning and budgeting, including direct payments.
17	Other	This should only be selected where the scheme is not adequately represented by the above scheme types.

Better Care Fund 2026-27 Numerical Template

6: National Condition Planning Requirements

Health and wellbeing board

National Condition	Planning requirement	Assurance statement	Yes/No to assurance statement	Where the planning requirement or assurance statement is not met, please note the actions in place towards meeting the requirement	Timeframe for resolution
National Condition 1: effectively support the delivery of integrated and preventative care ICBs and local authorities must develop joint plans, agreed by health and wellbeing boards, outlining how ICBs and local authorities intend to use BCF funding to deliver more integrated and preventative care, linked to the relevant areas of neighbourhood health and social care services.	ICBs and local authorities must have considered how to use the BCF most effectively to support the delivery of more integrated and preventative services, particularly supporting those with more complex health and social care needs. This must include setting out how the funding will be used to develop the quality, efficiency and outcomes from intermediate care.	Named ICB and local authority chief executives and named HWB chair must confirm that BCF expenditure is agreed and aligned with wider strategic objectives for neighbourhood health and social care.	Yes		
	ICBs and local authorities must set out plans that: - show reasonable progress in the metrics of non-elective admissions (for people aged 65 and over) and delayed discharges - show how they will monitor and drive progress in preventing avoidable long-term care home admissions and improving outcomes from reablement - include the specific contribution of BCF-funded services.				

Complete:

Yes

<p>National Condition 2: comply with expenditure and grant conditions</p> <p>ICBs and local authorities must comply with all national grant and funding conditions and deliver in accordance with their approved return. ICBs must maintain the NHS minimum contribution to adult social care and pool NHS BCF contributions into a section 75 (of the NHS Act 2006) pooled fund.</p>	<p>ICBs and local authorities must pool their designated minimum contribution (in the case of ICB partners) and the Local Authority Better Care Grant and DFG (in the case of local authority partners). ICBs and local authorities are able to voluntarily pool additional funding through the BCF where they consider this is likely to lead to an improvement in the services being funded.</p>					
	<p>The NHS minimum contribution to adult social care must be met and maintained by the ICB in line with the published BCF allocations. This represents an increase of 4.4% in each health and wellbeing board area.</p> <p>Local authorities must comply with the grant conditions of the Local Authority Better Care Grant and the DFG, including the pooling of funding.</p>	<p>ICBs and local authorities confirm compliance with BCF national grant and funding conditions, and that they will deliver in accordance with approved spend and BCF numerical return, including maintaining the NHS minimum contribution to adult social care.</p>	Yes			Yes
		<p>ICBs and local authorities confirm they will pool funds through Section 75 agreements by 30th September 2026.</p>	Yes			Yes
<p>National Condition 3: - effective governance, reporting and engagement</p> <p>ICBs and local authorities must comply and engage with BCF planning, governance and reporting requirements including adherence to any assurance and oversight processes.</p>	<p>ICBs and local authorities must have effective joint governance in place to ensure local accountability for delivery of outcomes, including reviewing performance against plan objectives and local goals, and taking action if necessary to bring delivery back on track.</p>					
	<p>ICBs, local authorities and health and wellbeing boards are required to engage with BCF reporting, oversight and support processes</p>	<p>ICBs and local authorities confirm full compliance with BCF planning and reporting requirements and will adhere to the BCF oversight and support processes.</p>	Yes			Yes
